

MyLab Course Registration Instructions

Dear Student,

Your instructor chose MyLab to help you succeed in this course. With rich media, your eText, and much more, your course provides you with the resources you need to master even the most difficult concepts. Your course is designed to help you get a better grade!

What You Need to Enroll in your Instructor's Online Course

- ✓ **A Course ID: carney44404**
- ✓ **A valid email address that you check regularly**
This address will be used to confirm your registration and for other communication about the course. Your instructor will also use this email address to communicate with you.
- ✓ **A student access code** (Or, you can pay with a credit card or a PayPal account.)
This pre-paid code is printed inside the Student Access Code Card. The code card may be packaged with your new textbook or it may be available for purchase separately from your school's bookstore.

To Register and Sign in to Your Instructor's Course the First Time

- Go to www.pearsonmylab.com
- Click **Student** under Register.
- Enter your Course ID and click **Continue**.
- Choose your enrollment options
- Read and accept the licensing agreement
- You have a Pearson account if you have used other Pearson online products. Enter your username and password, and click **Next**.
- If you don't have a Pearson account, click "No" or "Not sure" to search for possible accounts.
- Complete your account set up by entering your name, email address, a username and password, and any other required information.
- Complete the registration process.
- Paying for your course access.
 - If using a credit card or PayPal, you will be prompted to enter your payment information before your registration process is complete.
- Print the Confirmation & Summary

You now have access to your instructor's online course.

Click **Go To Your Course**, and then in the left panel, click the course name to start your work.

Accessing MyVirtualChild within MyDevelopmentLab:

Once you have logged into MyDevelopmentLab you will see a link on the home tab for MyVirtualChild. Click on that link and **enter the same login and password that you created for MyDevelopmentLab**.

- The first time that you login to MyVirtualChild, you will be asked to indicate you gender (so the program knows if you are the mother or the father). Next, enter your **Class ID: 2355**

- You will then be asked a series of questions about yourself. This information will be used to create your Virtual Child. After you complete these questions, you will receive the news that you are a proud parent, and you will be asked to name your child.
- The remainder of the MyVirtualChild program is spent raising your child from birth through age 18. You will be asked to make decisions on how you will raise your child. Throughout the program you will receive feedback from teachers, counselors, pediatricians, and other influential people in your child's life. These reports will allow you to assess the developmental progress of your virtual child. Your Virtual Child's development will be impacted by decisions you make throughout the program, as well as by genetic factors (relating to the questions you answered at the start of the program). In addition, random events will occur throughout the course of the program that you will need to make decisions about (such as in real life).

If you have questions or need help you can access the customer tech support website at <http://247pearsoned.custhelp.com>
