Math Skill Assessment Request Form

Please read, complete and bring this form to the Assessment.

Assessment of your skills in mathematics and English helps you achieve your goals in college. The purpose of Assessment is to place you into classes appropriate to your skill level. Placement results provide you and Monterey Peninsula College counselors with the information required to meet your educational objectives.

Math Assessment Preparation

It is critical to your success to review the practice assessments before assessing and to take the assessment that matches your math background and your current abilities. Sample math assessment questions are available at www.mpc.edu/studentservices/assessment or the Assessment Office. **After reviewing the sample assessment questions, check the appropriate box below and bring this form with you to your assessment.**

In order to account for the different math backgrounds of our students, MPC offers four different math assessments. People tend to forget math when they are not using it, therefore, a review of your math skills is essential. Below are guidelines for helping you choose the right assessment based upon your math course history:

If you took and passed (grade of "C" or higher):	**…then you should take this assessment:**
a math class long ago and/or you are not sure what your math skills are now…	**Math Assessment #1-Algebra Readiness** This assessment evaluates your arithmetic, pre-algebra and beginning algebra skills.
one year of high school algebra…	**Math Assessment #2-Elementary Algebra Diagnostic** This assessment evaluates your beginning and intermediate algebra skills.
two years of high school algebra…	**Math Assessment #3-Intermediate Algebra Diagnostic** This assessment evaluates your placement into a math class that meets GE Breadth or IGETC
two years of Algebra, one year of Geometry, AND Pre-Calculus (including trigonometry) or Math Analysis…	**Math Assessment #4-Pre-Calculus Diagnostic** This assessment evaluates your placement into Pre-Calculus or Calculus

☐ **Assessment # 1-** Algebra Readiness Assessment

☐ **Assessment # 2-** Elementary Algebra Assessment

☐ **Assessment # 3-** Intermediate Algebra Assessment

☐ **Assessment # 4-** Pre-Calculus Assessment
