History

Monterey Peninsula College (MPC) commenced its operation in September of 1947 on the campus of Monterey High School, holding classes from 4 p.m. to 10 p.m. daily. During this first year, 97 acres of land were purchased on Fremont Street. The following September, classes opened in converted barracks buildings with 280 students and 20 faculty members.

The campus was originally designed for approximately 1,000 students, but by 1957 the enrollment had approached this figure and it was evident that new buildings were necessary. The engineering building was constructed in 1958, the library in 1960, and the art and music center and swimming pool in 1962.

The junior college separated from the Monterey Union High School District in 1961 and became a separate junior college district. With this reorganization, the Carmel Unified School District and the Pacific Grove Unified School District became part of the Peninsula-wide junior college district.

The student population as well as the need for additional classrooms continued to grow. In 1965, the building program was renewed, and the “temporary” buildings of 1948 were replaced with new buildings for business, humanities, life sciences, physical education, physical sciences and social sciences. The Lecture Forum, the College Theater, and the Student Center were part of this campus renewal.

In 1971, the College recognized the need to meet the educational needs of the communities residing in the north side of its service area, comprised primarily of Marina and Seaside. During this time, Fort Ord was in full operation; therefore, the residents in these two communities consisted mostly of service men and women and their families.

From 1971 to 1993, the College operated an education center at Fort Ord in cooperation with the U.S. Army, mainly for the benefit of armed forces personnel and their families. After the closing of the base, the Fort Ord Re-Use Authority (FORA) was formed to administer and oversee the distribution of the former Fort Ord property to various state, county and local agencies, including Monterey Peninsula College. Several properties were slated for conveyance to Monterey Peninsula College including a parcel on 12th Street in Marina and another on Colonel Durham Street in Seaside. These properties have been conveyed to the college; they include 1) the Education Center at Marina, and 2) the Public Safety Training Center in Seaside, which includes a Fire and Police Academy. However, the conveyance of other properties, including Parker Flats and the MOUT (Military Operations on Urban Terrain) has been delayed due to munitions cleanup requirements.

In 1982-83, Monterey Peninsula College was selected as the site for the Maurine Church Coburn School of Nursing, established with a grant from the Maurine Church Coburn Charitable Trust. The school is operated, in part, with support from the Community Hospital Foundation. During August 1988, the engineering building was remodeled with funds from the Community Hospital Foundation to house the School of Nursing. In 1999, further remodeling of this building was completed, and the second floor of the International Center was remodeled to meet office and classroom space needs.

Monterey Peninsula College has enjoyed tremendous support from its residents. In November 2002, local voters approved a $145 million bond for facilities, infrastructure, and equipment at Monterey Peninsula College. Funds from the bond are being used to support the programmatic needs described in the College’s Educational/Facilities Master Plan, which includes the development of the Education Center at Marina located in the former Fort Ord.

In addition, in 2003, construction of the new Library and Technology Center at the entrance to the campus was completed, and a new Plant Services building was erected near the Automotive Technology program site.

Monterey Peninsula College is part of California’s public community college system of 114 campuses in 72 districts across the state. It is a comprehensive community college that responds to the educational, cultural, and recreational needs of the community, insofar as its resources permit. The College serves the communities of Big Sur, Carmel, Carmel Valley, Del Rey Oaks, Marina, Monterey, Pacific Grove, Pebble Beach, Presidio of Monterey Annex, Sand City, and Seaside. Monterey Peninsula College classes are held on the Monterey campus, at the Education Center at Marina, at the Public Safety Training Center in Seaside, and at off-campus locations.

Completion and Transfer Rates

In compliance with Student Right-to-Know, Monterey Peninsula College makes the following information available regarding the completion and transfer rates of certificate or degree-seeking, first-time, full-time students entering the College, beginning Fall 2013 to Spring 2016 and annually thereafter. The rates do not represent the success rates of the entire student population at the College, nor do they account for student outcomes occurring after this three-year tracking period.

- Based on the cohort of first-time, full-time freshmen with a declared program of study, 26.03% attained a certificate or degree or became “transfer-prepared” during a three-year period from Fall 2013 to Spring 2016. Students who are transfer-prepared have completed 60 transferable units with a GPA of 2.0 or higher.
- Based on the cohort of first-time, full-time freshmen with a declared program of study, 16.44% transferred to another public institution in California (UC, CSU, or other California Community College) prior to attaining a degree or certificate during a five semester period from Spring 2014 to Spring 2016.

Drug-Free Campus

It is the policy of the Monterey Peninsula College District to maintain a workplace free of the unlawful manufacture, distribution, dispensing, possession or use of controlled substances listed in Sections I through V of Section 202 of the Controlled Substances Act (21 United States Code Section 812), and revised schedules as published in the Code of Federal Regulations, Part 1308 of Title 21, Food and Drugs (alcoholic beverages, etc.).

For additional information regarding this policy contact the Dean of Student Services, at (831) 645-1377.
Notice of Nondiscrimination

The District is committed to equal opportunity in educational programs, employment, and all access to institutional programs and activities. The District, and each individual who represents the District, shall provide access to its services, classes, and programs without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because he/she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

The Superintendent/President shall establish administrative procedures that ensure all members of the college community can present complaints regarding alleged violations of this policy and have their complaints heard in accordance with the Title 5 regulations and those of other agencies that administer state and federal laws regarding nondiscrimination.

No District funds shall ever be used for membership, or for any participation involving financial payment or contribution on behalf of the District or any individual employed by or associated with it, to any private organization whose membership practices are discriminatory on the basis of national origin, religion, age, gender, gender identity, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because he/she is perceived to have one or more of the foregoing characteristics, or because of his/her association with a person or group with one or more of these actual or perceived characteristics.

Persons who seek information and/or resolution of alleged violations of discrimination based on protected status are directed to contact Dr. Christine Erickson, Dean of Student Services, who serves as the Interim Title IX Coordinator, at (831) 646-4850 or contact the Human Resources Office in the Administration Building.

Open Enrollment Policy

It is the policy of this District that, unless specifically exempt by statute, every course, course section, or class, of which the attendance is reported for state aid, wherever offered and maintained by the District, is fully open to enrollment and participation by any person who has been admitted to the College, and who meets such prerequisites as may be established pursuant to Title 5 of the California Code of Regulations.

It is further the policy of the District in accordance with Title 5 that, where health, safety, legal requirements, or the facility is a limiting factor in the conduct of a course/program, fair and equitable admission requirements and procedures will be established to meet such limitation.

Pre-Collegiate Unit Limitation

Students are limited to enrolling in thirty units in pre-collegiate (300-level) courses. Students shall be notified when they have completed thirty units of pre-collegiate courses. A student who has reached this limit may petition the Academic Council for permission to exceed this limit providing that he/she has demonstrated satisfactory progress and the need to complete a stated number of pre-collegiate units to continue progress toward the completion of an educational plan. (MPC Board Policy Appendix 4130)

Prohibition of Harassment

All forms of harassment are contrary to basic standards of conduct between individuals and are prohibited by state and federal law, as well as this policy, and will not be tolerated. The District is committed to providing an academic and work environment that respects the dignity of individuals and groups. The District shall be free of sexual harassment and all forms of sexual intimidation and exploitation including acts of sexual violence. It shall also be free of other unlawful harassment, including that which is based on any of the following statuses: race, religious creed, color national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation of any person, or military and veteran status, or because he/she is perceived to have one or more of the foregoing characteristics.

The District seeks to foster an environment in which all employees, students, unpaid interns, and volunteers feel free to report incidents of harassment without fear of retaliation or reprisal. Therefore, the District also strictly prohibits retaliation against any individual for filing a complaint of harassment or for participating in a harassment investigation. Such conduct is illegal and constitutes a violation of this policy. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that retaliation has occurred, it will take all reasonable steps within its power to stop such conduct. Individuals who engage in retaliatory conduct are subject to disciplinary action, up to and including termination or expulsion.

Any student, employee, unpaid intern, or volunteer who believes that he/she has been harassed or retaliated against in violation of this policy should immediately report such incidents by following the procedures described in AP 3435. Supervisors are mandated to report all incidents of harassment and retaliation that come to their attention.

This policy applies to all aspects of the academic environment, including but not limited to classroom conditions, grades, academic standing, employment opportunities, scholarships, recommendations, disciplinary actions, and participation in any community college activity. In addition, this policy applies to all terms and conditions of employment, including but not limited to hiring, placement, promotion, disciplinary action, layoff, recall, transfer, leave of absence, training opportunities and compensation.

To this end the Superintendent/President shall ensure that the institution undertakes education and training activities to counter discrimination and to prevent, minimize and/or eliminate any hostile environment that impairs access to equal education opportunity or impacts the terms and conditions of employment.

The Superintendent/President shall establish procedures that define harassment on campus. The Superintendent/President shall further establish procedures for employees, students, unpaid interns, volunteers, and other members of the campus community that provide for the investigation and resolution of complaints regarding harassment and discrimination, and procedures for students to resolve complaints of harassment and discrimination. All participants are protected from retaliatory acts by the District, its employees, students, and agents.
This policy and related written procedures (including the procedure for making complaints) shall be widely published and publicized to administrators, faculty, staff, students, unpaid interns, and volunteers particularly when they are new to the institution. They shall be available for students, employees, unpaid interns, and volunteers in all administrative offices and shall be posted on the district’s website.

Employees who violate the policy and procedures may be subject to disciplinary action up to and including termination. Students who violate this policy and related procedures may be subject to disciplinary measures up to and including expulsion. Unpaid interns who violate this policy and related procedures may be subject to disciplinary measures up to and including termination from the internship or other unpaid work experience program.

Any sexual assault or physical abuse, including, but not limited to rape as defined by California law, whether committed by an employee, student or member of the public, that occurs on District property, is a violation of District policies and procedures, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. Students, faculty, and staff who may be victims of sexual and other assaults shall be treated with dignity and provided comprehensive assistance.

The Superintendent/President shall establish administrative procedures that ensure that students, faculty, and staff who are victims of sexual and other assaults receive appropriate information and treatment, and that educational information about preventing sexual violence is provided and publicized as required by law.

The District’s Procedures for Discrimination and Harassment complaints are available in the office of Human Resources and online at www.mpc.edu/aboutmpc/campus-resources/human-resources

For additional information, visit our Title IX webpage by typing “Title IX” in the college’s search engine. To report any alleged violations, contact Dr. Christine Erickson, cerickson@mpc.edu or by phone at (831) 646-4850 or contact the Human Resources Office in the Administration Building.

Students with Disabilities

The College will make reasonable accommodations and/or academic adjustments to ensure that students with disabilities have an equal opportunity to participate in the College’s courses, programs, and activities. Students with disabilities who are requesting academic accommodations, academic adjustments, auxiliary aids, services and/or educational assistance classes should contact the Access Resource Center at (831) 646-4070.

Participation by students with disabilities in the Access Resource Center is voluntary. Any student choosing not to participate in the Program may elect to take an alternative path to request accommodations through the A.D.A./504 Coordinator designee, Vice President of Student Services. Please call (831) 646-4155 for more information.

Smoking Policy

In the interest of protecting the health of students, employees, and visitors to the campus, smoking is prohibited within 20 feet of main entrances, exits, and operable windows of any MPC facility. Additionally, the use of tobacco – to include smoking and/or chewing any form of tobacco – is not permitted except in parking lots. Smoking is not permitted in Lower Parking Lot A during the hours of the Farmers’ Market, International Center Staff Parking Lot, Parking Lot J, or the Business/Humanities driveway. Smoking is not allowed in campus-owned vehicles. (MPC Board Policy 3570)

Furthermore, the District shall be free from the possession, use, or distribution of cannabis products by students and employees.

Students, staff, and visitors who violate the smoking policy are subject to disciplinary procedures as detailed in the appropriate sections of the Board Policy.

Student Success and Support Program

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. The new legislation referred to as the Student Success and Support Program began on January 1, 2013 and will be implemented through stages over a five-year period.

The Student Success and Support Program supports the transition of matriculated (non-exempt) new students into the college by providing them with required services in assessment, orientation, counseling/education planning, and follow-up. Students must complete assessment, orientation an education plan prior to their priority registration time.

College Responsibilities Include:
1. Providing clear policies reflecting Student’s Rights and Responsibilities and other Student Success and Support Program policies.
2. Providing an admissions and records process that will enable the College to collect state-required information that will be used as a basis for providing services for students.
3. Providing an assessment process using multiple measures to determine academic readiness in English, reading, and math. These assessment results will be used by the College to assist students in the selection of academic courses. Additional assessments are available in areas of study/learning skills and career technical interests.
4. Providing an orientation process designed to acquaint students with College programs and services, facilities and grounds, academic expectations, and College policies and procedures.
5. Providing counseling services to assist students in course selection, development of a student education plan, and use of campus support services. Additional advisement and counseling assistance will be provided for students who have not declared educational goals, are enrolled in basic skills courses, are on academic probation/dismissal, or have been identified as high-risk students.
6. Providing the development of a comprehensive Student Education Plan once the student has identified a course of study.

STEP Program

There are six important steps to take before beginning course work at Monterey Peninsula College:

1. Admission
2. Financial Aid (Optional)
3. Orientation (online or in person)
4. Assessment
5. Counseling/Advisement (student education plan)
6. Registration

The completion of these steps will expedite the enrollment process and greatly enhance chances for educational success. The College encourages all NEW students to participate in the STEP Program.

STEP ONE – Admission: Submit the Application for Admission and have transcripts mailed to the Admissions and Records Office.

STEP TWO – Financial Aid (optional): To learn more about the many different kinds of financial assistance that are available and how to apply, see page 21, visit the Student Financial Services webpage at www.mpc.edu/financialaid or visit Student Financial Services in the Student Services Building.

STEP THREE – Orientation: Register for the course PERS 10 Orientation to College to receive information about educational programs, policies, and procedures of the College and the development of a Student Education Plan.

New transfer students who have completed orientation at another college should file the Orientation Verification Form with the Counseling Department. This form is available from the Counseling Department or on our website at www.mpc.edu/orientation. If orientation was not completed at another college, you can complete the online orientation available at www.mpc.edu/orientation

STEP FOUR – Assessment: All new matriculated students are required to participate in assessment. Students planning to take an English or math class (or a course with an English or Math prerequisite) must have their skills assessed for placement. Assessment sessions are offered many times throughout the year and can take up to three hours to complete. The dates and times of these sessions can be viewed at www.mpc.edu/assessment

Assessments are available on a walk-in basis. Please check the assessment website at www.mpc.edu/assessment for available dates. Please call (831) 646-4027 with any questions. If a student has been exempt from taking assessments because of test scores or completion of prerequisite courses, the student must provide the Counseling Department with the score reports or transcripts.

Students with disabilities needing special accommodations for an assessment should contact the Access Resource Center to make arrangements. Telephone (831) 646-4070. TTY users may use 711 Relay Services.

The English Placement Test (EPT) is designed for native speakers of English. Students who speak English as a second language should take the ESL Placement Test (ESLPT) in order to be advised accurately. The ESLPT is offered throughout the year and takes about three hours to complete. The dates and times for these sessions can be viewed at www.mpc.edu/assessment
STEP FIVE – Counseling/Advisement (Education Plan): New students who have completed assessment and orientation can schedule an appointment with a counselor in the Counseling Department at (831) 646-4020 to complete a Student Education Plan. All students receiving veteran’s benefits must meet with a counselor to complete a Student Education Plan.

STEP SIX – Registration: Upon the student’s completion of assessment, orientation, and counseling/advisement, check the priority registration dates in the Admissions and Records section of the MPC website, www.mpc.edu/admissions

Students who do not possess a high school diploma, a Certificate of Completion, or a GED, or did not pass the High School Proficiency Exam, may be required to take an independently administered exam to demonstrate their ability to benefit from instruction at MPC.

Monterey Peninsula College shall admit students who are capable of profiting from the instruction offered. In addition, the College shall admit:
- International students on F-1 or M-1 (student) visa with a minimum acceptable TOEFL score of 450 paper-based (or 133 computer-based; or 45 Internet-based), evidence of financial support during enrollment at the College, and approval of the International Student Programs designee.

Registration Priorities
Monterey Peninsula College awards priority registration in accordance with state mandates and College policy. Priority registration status may be earned or lost. Actions such as successful matriculation may earn a student an earlier registration priority while actions such as poor academic status may cause a student to lose their registration priority. Students who have lost their registration priority and would like to appeal may petition the Academic Council. For Academic Council petitions please visit the Admissions and Records website.

Priority registration for continuing students is based upon the number of units completed at Monterey Peninsula College and the in-progress units for the current semester. Units completed at other institutions will not be considered. Active military, Veterans, Foster Youth, DSPS, EOPS, CalWorks, TRIO/SSS, ASMPC officers and student athletes have specific priority registration dates. Please visit the Admissions and Records website for more information.

Residency
CALIFORNIA RESIDENTS:
This information applies to U.S. citizens, students on permanent resident visas, and students on visas that allow the establishment of residence. You may be asked to submit documentation to verify California residence.

Resident student classification for education purposes will be given to students 19 years of age or older who have resided in California for at least one year and one day prior to the beginning of the semester or session, and have “manifested the intent” to make California their residence one year and one day prior to the beginning of the semester or session. “Manifested the intent” means having the supporting documentation indicating the intention to make California one’s state of legal residence. This is normally done by filing state income tax forms as a resident, by voting as a resident, and not possessing documents contradicting California residence (e. g., paying state taxes to another state, voting absentee for another state, petitioning for a divorce in another state).

If a student is under 19 years of age and the student’s parent or legal guardian meets the conditions listed above, the student may qualify as a California resident upon completion of the request to be classified as a California Resident form.

Nonresident status is not changed automatically. Students previously classified as nonresidents must complete a “Request to be Classified as a California Resident” form. And if now requesting California resident status, this form, with required documentation, must be submitted to the Admissions and Records Office. Dependents of active duty U.S. military personnel assigned to California may be exempt from nonresident tuition upon completion of the U.S. Military Dependent Form available at www.mpc.edu/admissions/Forms
Residency may only be adjusted during the term in which the nonresident fees are billed. Upon the conclusion of the term, all fees become finalized. Residency will not be changed retroactively.

NONRESIDENTS:
Students not meeting the California residency requirement, including international students, undocumented students, and students possessing visas which preclude them from establishing California residence, will be classified as “nonresidents” and are subject to nonresident tuition.

The law governing residence determination for tuition purposes may be found in the California Education Code and in Title 5 of the California Code of Regulations. A copy of the statutes and regulations is available for inspection in the Dean of Student Services Office or in the Admissions and Records Office.
Registration

Class Schedule
The College prepares a Schedule of Classes for each term. The Schedule of Classes, registration dates, procedures, fees, and other information can be found on the MPC website.

Procedures
Monterey Peninsula College students must use WebReg to register for classes. Students must pay all past debts before registering.

Monterey Peninsula College has adopted a priority registration system for students to register. See the www.mpc.edu/admissions website for registration dates and times.

A student may not register for more than one class having the same course number which meets at different times, places or days during a given semester or session.

Students are responsible for ensuring that they are officially registered for the correct courses.

Students should always make and keep a copy of any completed transaction for their own records.

Registration Changes: Adding and Dropping Classes
Add: Generally, a change which involves the addition of a course to a student's initial class schedule is considered an add. The exact dates during which a class may be added are available on the College website.

Drop: Students are responsible for dropping themselves from a class and must not expect faculty to initiate withdrawal procedures for them. Students may withdraw from semester-length courses through the last day of the 14th week of instruction or 75% of a semester-length class, whichever is less (or 60% of short-term classes). To officially withdraw from a course within the specified deadline, an eligible student may drop by logging onto WebReg from the College website (www.mpc.edu). For assistance with WebReg, please visit Admissions and Records.

Prerequisite Verification
The College has mandatory prerequisite verification. If a prerequisite course was completed at another institution, the Prerequisite Verification Form, with required documentation, must be completed and submitted to the Counseling Department in the Student Services Building. If a prerequisite course is in progress at another institution, it cannot be used for prerequisite verification until a final grade is earned. If the prerequisite course was completed at MPC before Fall 1995, complete the Prerequisite Verification Form and submit it to the Counseling Department who will check your MPC record. If the prerequisite course was completed at MPC in Fall 1995 or after, verification is not required.

Prerequisites and Corequisites Challenges
Some courses require students to meet certain conditions in order to register. A ‘prerequisite’ is a requirement that must be met before registering for a course. A ‘corequisite’ is a requirement that a student must enroll in simultaneously with another course.

A student may challenge a prerequisite by following the Prerequisite/Corequisite Challenge Procedures described below. NOTE: Challenge paperwork must be filed by the last day of regular late registration.

1. Pick up a Prerequisite Challenge Form from the Division Office responsible for the course you wish to challenge.

2. Complete the form by identifying one or more of the following reasons for seeking a challenge:
   a. The prerequisite or corequisite is not reasonably available;
   b. The student believes the prerequisite was established in violation of regulations or in violation of the District-approved processes;
   c. The student believes the prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
   d. The student has the documented knowledge or ability to succeed in the course without meeting the prerequisite or corequisite. (NOTE: Attach documentation to the prerequisite form for the department to review.)

3. File the completed Prerequisite Challenge Form with the Division.

4. Take the Counseling Copy of the Challenge Form to the Counseling Department in the Student Services Building for prerequisite clearance.

5. Enroll in the course which required the prerequisite challenge.

6. Department review must take no longer than five working days. Check with department's schedule for review of challenges.

7. A copy of the Prerequisite Challenge Form will be forwarded by the department/division to the Dean of Student Services office indicating that the challenge was approved or denied. If the challenge is denied, the student will be dropped from the course.
Fees

Fees and tuition are due and payable at the time of registration using cash, check, money order, VISA, or MasterCard. Visa and MasterCard may be used when registering by WebReg. For more information on fees, payments, and refunds, please visit www.mpc.edu/admissions

All fees and tuition charges are subject to change without prior notification.

Expenses

Community College Enrollment Fee: Students are required to pay an Enrollment Fee of $46.00 per unit. No enrollment fee is required of a student who is a California resident and a recipient of benefits under the Temporary Assistance for Needy Families Program, the Supplementary Security Income/State Supplementary Program, or the General Assistance Program. Eligibility is determined by Student Financial Services prior to registering. The enrollment fee is refundable for courses dropped by the end of the second week for semester-length courses and by the first class meeting for courses that are more than one week in length but less than a semester.

Early Childhood Laboratory School Fee: An optional $3.00 fee can be designated to support the Early Childhood Laboratory School on campus. The Early Childhood Laboratory School fee is a donation and is nonrefundable.

Health Fee: The Health Fee of $20.00 per semester or $17.00 for summer session is required of all students. Exemptions to the fee may be made through Student Health Services, before registering, for students who use prayer for healing (which must be verified in writing by the College Nurse).

The Health Fee is refundable if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course.

Instructional Materials Charge: Monterey Peninsula College may require students enrolling in some courses to pay materials charges, if the materials required for the class/lab are used in the production of an end product and have continuing value to students outside the classroom/lab. Materials charges are refundable if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course.

Nonresident Tuition: Students classified as nonresidents must also pay nonresident tuition. Nonresident tuition for the 2018-2019 academic year is $258.00 per unit in addition to the Enrollment Fee.

Parking Permits: Students may purchase semester and annual parking permits through WebReg (go to “www.mpc.edu/parkingpermits”). Current parking fees and parking information can be found on the website under Campus Safety or by typing in “parking” in the search field. Vehicles without semester or annual parking permits must display a daily permit available at the daily permit dispenser machines on campus. No partial refund will be given for the difference between semester-rate and annual parking permits. The Parking Permit Fee is refundable.

Parking Permits must be returned, if received, to the Admissions and Records Office within the first two weeks of the semester. For students who have not received a permit by the refund deadline, a refund request must be received by the deadline, or no parking refund will be given. If unpaid, the charge will remain owed to the college. Please check the Admissions and Records website for ordering and fee information.

Student Body Fee: The $5.00 Student Body Fee allows for a picture ID and supports Student Government and entitles the student to local merchants’ discounts, ASMPC short-term emergency loans, free or reduced admission to all sporting events, dances, and other cultural, social or academic activities sponsored by Monterey Peninsula College. The Student Body Fee is refundable if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course. Students requesting a waiver from the Student Body Fee must submit the Student Body Fee Waiver Form. The form is available on the MPC website, at the Admissions and Records Office, and at the Student Activities Office.

Student Center Use Fee: The Student Center Use Fee of $10.00 per semester or $5.00 for summer session is required of all students taking at least one course (excluding online and weekend-only courses) on the Monterey campus. This fee helps to repay a government loan which was obtained to build and maintain the Student Center. The Student Center Use Fee is refundable if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course.

Student Representation Fee: This fee of $1.00 is collected at the time of registration for the purpose of providing student government representatives the means to travel and attend conferences to enhance their goal in bringing forth the students’ viewpoints before any political entity. The Student Representation Fee is refundable if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course. Students requesting a waiver from the Student Representation Fee must submit the Student Representation Fee Waiver Form. The form is available on the MPC website, at the Admissions and Records Office, and at the Student Activities Office.

Textbooks: Textbooks are essential and though prices vary, textbooks for most classes are approximately $100.00. Textbooks for accounting, nursing, math and drafting classes can be $150.00 or more.
Transcript Fee: Upon the official request of the student, official transcripts are issued by the Admissions and Records Office. The first two copies of a student’s transcript requested in a lifetime, under normal procedures, are provided at no charge. After the first two copies, transcript fees apply. Rush service is available for an additional cost. Transcript processing time may take up to ten business days. Transcripts cannot be released if the student has any outstanding debts and/or obligations due the District. College policy does not permit the faxing of transcripts. Transcripts from high school and other colleges will not be forwarded by MPC.

Unofficial transcripts for students who attended MPC since 1995 are available on our website (www.mpc.edu): click on WebReg. To request an official transcript, log on to WebReg or visit www.studentclearinghouse.org

Refunds – Fees
Students requesting refunds of the Student Center Use Fee, Health Fee, Student Body Fee, and/or Student Representation Fee, may do so if all courses are dropped within the refund deadlines. For full-term semester length courses the deadline is typically before the end of the second week of class. Short-term courses have individual deadlines, which are often quite short. Please refer to the section dates link available within WebReg or ask Admissions and Records for more information regarding the refund deadlines for any course. The same applies to the Enrollment Fee and material charges. Refunds will not be authorized for courses not dropped by the appropriate deadline.

A refund processing fee of $10 per semester/session may be withheld from the refund of the Enrollment Fee for courses dropped that have not been canceled by the College.

Refund Request Process
It is the student’s responsibility to drop courses by the correct deadline. Only Enrollment Fees are automatically refunded. A Refund Request form, available on our website and at the Admissions and Records Office, must be completed and submitted to the Admissions and Records Office before the end of the semester or session in which a refund is due; otherwise no refund will be made. Any fee/tuition collected for a class that is canceled by the College or collected in error is refundable upon application. Requests for refunds must be made ONLY through the Admissions and Records Office. Refund checks are mailed or credited to credit card accounts by Fiscal Services.

Canceled Classes
Any fee/tuition collected for a class that is canceled by the College or that is collected in error is refundable upon request. Refund Request forms are available at the Admissions and Records Office and on the MPC website.

Exception to the Refund of Fees Policy
Any exception to the refund policy, because of extenuating circumstances, may be made to the Academic Council, upon student petition, before the end of the semester/session in which the refund is being requested. Academic Council petitions are available at the Admissions and Records Office and on the MPC website.

Refunds – Textbooks
See College Bookstore on page 49 for refund policy.

- 150% Maximum Time Frame: Students are required to complete their program of study (major) within the maximum time frame as described in the MPC College Catalog. All courses attempted are included when computing the 150% units attempted.
This page is intentionally left blank.
Academic Policies

Auditing
District policy prohibits the auditing of courses. Students must be registered for each course they attend. Classes cannot overlap in time; students may register in only one course in a scheduled time period.

Course Repetition
Effective Summer 2012, Monterey Peninsula College implemented new limitations regarding course repetitions and withdrawals in a single course. These changes were mandated by the Board of Governor’s Title 5 regulations. Students repeating a course in which they previously received a substandard grade of D, F, NC, NP, and/or a non-evaluative symbol of W (Withdrawal) may be limited to a total of three enrollments.

Students are advised to carefully choose their courses each term to ensure successful completion. This new regulation is retroactive to Fall 1995. Therefore, some students may find that they have already exhausted the repeat and withdrawal limitation of three enrollments.

Students should click on “View Grades” on WebReg to review their current unofficial transcript in an effort to determine how they may be affected by this new policy. Contact the Admissions and Records Office at (831) 646-4002 if you have further questions. You may also speak with a counselor.

Course Repetition
A student may repeat a course only under the following conditions.

1. the student’s prior evaluative grade in the course is a “D,” “F,” “NC,” or “NP” or the student withdrew from the course and received a “W”; after the second attempt and received D, F, NC, or NP, the student will be required to petition the Academic Council for a third and fourth final attempt; or

2. the College catalog designates the course as repeatable and the number of times it may be repeated; or

3. the student receives prior written permission from the Academic Council when the student can demonstrate that the student meets the requirements for one of the permissible course repetition guidelines, as outlined on the Academic Council Petition: Course Repetition. Such as the course must be repeated in order to make progress toward employment and certification.

4. Cooperative Work Experience, intercollegiate athletics, and DSPS (Disability Support Programs and Services) courses may require a petition.

Students who wish to petition the Academic Council for course repetition must file an Academic Council Petition: Repeat Petition, available at the Admissions and Records Office and on our website at www.mpc.edu/admissions/forms. Counselor signatures are required for some types of course repetition.

Expanded Definitions:
Pass (P)
A “P” grade indicates completion of work with a grade of “C” or better. “P” does not affect a student’s grade point average. A maximum of 20 units of “P” may be applied towards the associate degree. Departments may require majors to obtain letter grades in all courses specifically required for that major, provided the letter grade option exists. For courses that may be taken as either P/NP or for a letter grade, students must choose which option they want at the time of registration. Changes must be made before the deadline specified for the course. No changes are permitted after the deadline.

No Pass (NP)
A “NP” grade indicates completion of work with a grade of “D” or “F.” “NP” does not affect a student’s grade point average. However, the course in which an “NP” grade is earned will not apply towards graduation, and the grade shall be considered in probation and dismissal procedures. For courses that may be taken as either P/NP or for a letter grade, students must choose which option they want at the time of registration. Changes must be made before the deadline specified for the course. No changes are permitted after the deadline.

Incomplete (I)
An Incomplete (“I”) grade may be assigned by an instructor only when a student has failed to complete course work at the end of the term for unforeseeable, emergency, and justifiable reasons. MPC defines the end of the term as being after the last date to drop with a “W” grade. The condition for removal of the “I” will be stated on a written form by the instructor and signed by both the student and the instructor. The grade to be assigned, if the conditions are not met, also must be indicated and will be changed on the student’s record if the work is not completed within one year. A copy of the form must be given to the student by the instructor with the original on file at the Admissions and Records Office. The incomplete form must be received in Admissions and Records no later than two weeks after the end of the course. A final grade may be assigned by the instructor within one year when the work stipulated has been completed and evaluated. A Change of Grade Form must be submitted by the instructor to the Admissions and Records Office. Students must complete the coursework within one year and may not register for the course in order to make up the incomplete work.

The “I” grade is not used in calculating a grade point average but is used as a factor in determining progress probation and progress dismissal status.
In Progress (IP)
An In Progress ("IP") grade denotes that the class extends beyond the normal end of the academic semester/session and that the assignment of a grade must await completion of the course. The "IP" will remain on the student's record in order to satisfy enrollment documentation. The appropriate grade and units will be assigned when the course has ended. The "IP" grade is not used in calculating the grade point average or probation and dismissal status.

Report Delayed (RD)
A Report Delayed ("RD") grade denotes a delay in reporting the grade of a student due to circumstances beyond the control of the student. "RD" is a temporary notation and will be replaced by a permanent symbol as soon as possible. "RD" is not used in calculating the grade point average.

Military Withdrawal (MW)
A “MW” grade will be assigned, upon verification of such orders, only to students who are members of an active or reserve military service, and who receive orders compelling a withdrawal from courses. “MW” will not be counted in progress probation and dismissal calculations.

Withdrawal (W)
Withdrawal from a class or classes is authorized through the last day of the 14th week or 75% of instruction, whichever is earlier, for semester-length classes or 60% of a short-term class. No notation ("W" or other) will be made on the academic record of the student who withdraws during the first two weeks of full-term classes or 20% of a short-term class. Withdrawal after this period and up to the 14th week or 75% of instruction, whichever is earlier, for semester-length classes or 60% of a short-term class will be recorded as a “W” on the student’s record. A student who remains in a class beyond this period must receive an evaluative grade, unless an exception is made by the Academic Council when a student petition demonstrates that the withdrawal is beyond the student’s control, such as illness, accident, or other circumstances.

Prior to the drop deadline for a class, a student may initiate a withdrawal for any reason. An instructor may initiate a withdrawal when the student is failing to meet course attendance requirements, resulting in unsatisfactory progress.

The “W” will not be used in calculating grade point averages, but excessive “W” grades are used as factors in progress probation and progress dismissal.

Grading Option
Monterey Peninsula College offers:

- some courses solely on the standard letter (A-F) grade (see page 24 for grading definitions) basis;
- some courses solely on the pass/no pass (P/NP) grade basis;
- some courses in which the student may choose to complete the course on either a letter grade or a pass/no pass (LG-P/NP) grade basis.

Offering courses for pass/no pass grades provides students with the opportunity to explore areas outside their current interest without undue concern for their grade point average. This policy also recognizes that a standard letter grade may not always measure the value of a course to an individual student. Pass/no pass grading enables students to enroll in courses on a pass/no pass basis to improve basic skills; to provide educational opportunities to pursue studies not in the major field; and to explore general education. Each department determines the courses it will designate for pass/no pass grading.

If P/NP is an option for a course and the student wishes to take the course for P/NP, the student may request this option through WebReg. This option must be requested within 25% of the course or by the end of the fourth week for semester-length courses. All courses numbered 300 and above are always offered on the P/NP option, if graded.

Grade Point Average (GPA)
A grade point average (GPA) is a computation based on the value of the letter grade (A-F) for each course, the number of units associated with each course, and the total number of units attempted.

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Points per unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The semester GPA (grade point average) is calculated by dividing the total number of grade points earned in that semester by the total number of units attempted in letter-graded courses for that semester.

The cumulative GPA (grade point average) is calculated by dividing the total number of grade points earned by the total number of units attempted in letter-graded courses.

In course repetition for substandard work, the grade earned in the last enrollment will be used in determining the units attempted, completed, and grade points earned. Grades awarded for courses repeated, under provisions of special circumstances other than for substandard work, will not be counted in calculating a student’s grade point average. For GPA adjustment requests due to course repetition, a “P” grade may replace a grade of “D” or “F”. An “NP” grade may not replace a “D” or “F” grade in GPA calculations. Transcripts are not audited; students must inform the Admissions and Records Office of courses repeated for substandard grades.
Graduation

Graduation Requirements and Catalog Rights

- Graduation requirements are subject to change.
- Graduation requirements are determined based on the following:
  - If continuous enrollment is maintained, students may choose the degree or certificate requirements that are in effect at either the time of entrance into MPC, or any catalog thereafter. Upon reentry to the college after an absence, catalog rights will be reestablished using the current academic catalog determined by the student’s semester/term of reentry. Continuous enrollment is defined as having any grading symbol (“A” through “F”, “P”, “NP”, “I”, “IP”, “MW”, “RD” or “W”) for a credit course entered on an official transcript during an academic year.
  - Each new catalog year begins with the fall semester and includes the following spring semester and summer session.
  - Students may not complete general education requirements under one catalog and major requirements under a different catalog.
  - Students wishing to use a course to fulfill a General Education requirement must make sure that the course is approved for the academic year in which it is taken. The general education courses change each year. It is advised that students meet with a counselor regularly to review any changes. If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the area requirement.
  - Requests for exception to this policy may be addressed by submitting a petition to the Academic Council.

Graduation Petition

Students who expect to graduate from the College must file a petition to graduate with the Admissions and Records Office. The form is available in the Admissions and Records Office and in their section of the website.

All external transcripts, military records, advanced placement scores, International Baccalaureate scores, CLEP scores, counselor course evaluations, and any other materials being used to complete graduation requirements must be on file in the Admissions and Records Office by the following petition deadlines:

<table>
<thead>
<tr>
<th>Graduation Term</th>

<tbody>
<tr>
<td>FALL</td>
<td>NOVEMBER 1</td>
</tr>
<tr>
<td>SPRING</td>
<td>APRIL 15</td>
</tr>
<tr>
<td>SUMMER</td>
<td>JULY 1</td>
</tr>
</tbody>
</table>

Students are advised to make an appointment with a counselor to evaluate eligibility for the associate degree. A counselor’s signature is required on all degree petitions.

Commencement

Commencement is held once a year, in May or June, at the end of the Spring semester for students who have completed the requirements for their degree any semester during the school year, including the previous summer session.

Exceptions to Regulations and Requirements

Requests for exceptions to the admissions, academic, and curricular regulations may be made by petition to the Academic Council. Exceptions are made only for extenuating circumstances. The Academic Council Petition form is available from the Admissions and Records Office and on the MPC website.

Other Credit

Advanced Placement (AP) Examinations

Students who complete the College Entrance Examination Board Advanced Placement exams with test scores of 5, 4, or 3, depending on the examination taken, may be granted credit.
Students may earn credit for College Entrance Examination Board Advanced Placement (AP) exams with scores noted below. AP can be used to meet IGETC, CSU GE, and AA/AS general education requirements. For credit to be applied, students must have the College Board send their official AP exam results to the Monterey Peninsula College Admissions and Records Office. Only official, sealed copies will be accepted.

All units denote semester.

<sup>1</sup> If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate.

<sup>2</sup> If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate; and only four units of credit may be applied to a certification in GE Breadth.

<sup>3</sup> Student needs to complete a US-3 course which covers California State and Local Government in order to satisfy CSU American Institutions requirement.

**NOTE:**
- Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of Language Other Than English (Area 6A).
- Students who have earned credit from an AP exam should not take a comparable college course because transfer credit will not be granted for both.
- AP credit may not meet specific UC campus or UC major requirements. Consult a counselor or the UC Admissions exam credit website: http://admission.universityofcalifornia.edu/counselors/exam-credit/
Students may earn credit for College-Level Examination program (CLEP) exams with scores of 50 or higher. CLEP credit can be used to meet CSU GE and AA/AS general education and/or major requirements. For credit to be applied, students must have the College Board send their official CLEP exam results to the Monterey Peninsula College Admissions and Records Office. Only official, sealed copies will be accepted.

**CLEP does not apply to IGETC and is not accepted at UC.**
All units denote semester.

⁴ If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered “Level I” and earns six units of baccalaureate credit; a passing score higher than 50 listed for a test is considered “Level II” and earns additional units of credit and placement in Area C2 of CSU-GE Breadth, as noted.
Students may earn credit for International Baccalaureate (IB) exams with scores noted below. IB credit can be used to meet IGETC, CSU GE, and AA/AS general education requirements. For credit to be applied, students must have the International Baccalaureate Organization send their official IB exam results to the Monterey Peninsula College Admissions and Records Office. Only official, sealed copies will be accepted.

5The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

**NOTE:** Additional IB exams may be accepted by UC for elective credit. Consult a counselor or the UC Admissions exam credit website: [http://admission.universityofcalifornia.edu/counselors/exam-credit/](http://admission.universityofcalifornia.edu/counselors/exam-credit/)
Other Credit (cont’d)

Articulation of High School Courses
An articulation agreement enables students to receive either a course waiver or college credit for completion of courses at the secondary level, Regional Occupational Program, or Adult School which are comparable to courses offered at Monterey Peninsula College (MPC). The granting of a course waiver and/or college credit is based on the achievement of competencies through a course, or a sequence of courses, as defined on the Course Waiver or the Credit by Proficiency Examination which specifies the conditions of the articulation agreement. Students must initiate the process to receive a waiver or credit and enroll in the College and be in good standing prior to being granted articulated credit.

College Level Examination Program (CLEP)
An enrolled student may receive credit by requesting a transcript from the College Level Examination Program. Test score must be at a 50% minimum. A maximum of 30 units may be earned through CLEP.

Credit by Examination of Selected Monterey Peninsula College Courses
A student who has acquired knowledge and/or skills may be able to receive college credit for these achievements through an appropriate examination and may be awarded credit. A maximum of 30 units may be earned through credit by examination. Credit granted by examination does not apply toward the 12-unit residency requirement. A registered student who has completed at least six units at Monterey Peninsula College may petition to receive college credit by comprehensive examination for a course on the approved Credit by Exam list available at the Admissions and Records Office. The student must have been enrolled during a prior term, be in good standing, enrolled in at least one other course during the semester/session the exam is administered, and pay appropriate unit fees for the course. The Credit by Exam course is not part of the current unit load. The units and grade earned will be recorded on the student’s permanent record at the end of the semester/session in which the exam was completed. Contact the Admissions and Records Office for the procedure and current list of courses.

International Baccalaureate (IB) Examinations
Monterey Peninsula College considers for transfer credit highlevel International Baccalaureate examinations where a grade of 5, 6, or 7 has been earned. The official International Baccalaureate transcript must be submitted to the Admissions and Records Office for review once the student has enrolled. The number of credits awarded reflects the units of the equivalent course at the College. The examinations may also be used to meet prerequisites for other courses.

Transfer Credit
Students who attended another college prior to Monterey Peninsula College and plan to earn a degree, certificate or transfer to a four-year college or university must have official copies of previous college work submitted directly to the Admissions and Records Office. A student may receive credit towards the associate degree or certification for CSU GE’s Area E from Monterey Peninsula College. DD-214 credit does not apply to the IGETC or as UC-transferable credit. Contact the Counseling Department for more information.

Credit may also be allowed for college-level USAFI courses and for formal courses taken at military services schools, if such credit is recommended in the American Council on Education (ACE) Guide.

Student Load
A full-time student must simultaneously carry a minimum of 12 units each semester. A student must complete an average of 15 degree-applicable units each semester, or 30 units each year, including summer session, to meet the requirements for an associate degree within two years.

Students are not permitted to register for more than 18 units each semester or for more than two courses, plus one physical activity course, for the summer session. Students capable of successfully carrying an overload may be authorized by a counselor to add additional units.

There are no minimum unit requirements for enrollment in the College, except for the purpose of qualifying for eligibility status. The following represents minimum unit load eligibility requirements:

Academic Standards

Academic/Progress Probation
Students are not evaluated for probation until they have enrolled in 12.0 units at Monterey Peninsula College.

Academic Probation
A student who has attempted at least 12 units at Monterey Peninsula College will be placed on academic probation when he/she has earned a grade point average below 2.0 in all accumulated units with evaluative grades or was readmitted after academic dismissal.

Removal from Academic Probation
A student shall be removed from academic probation whenever he/she has achieved a cumulative grade point average of 2.0 or higher in all accumulated units with evaluative grades.

Progress Probation
A student who has enrolled in at least 12 units at Monterey Peninsula College will be placed on progress probation when the cumulative percentage of "W," "I," and "NP" units at Monterey Peninsula College reaches or exceeds 50% of all units attempted at the College.

Removal from Progress Probation
A student will be removed from progress probation whenever a student completes more than 50% of all units attempted at the College.

Academic/Progress Dismissal and Readmission

Academic Dismissal
A student on academic probation shall be dismissed when the student's cumulative grade point average is below 2.0 for two consecutive semesters.

Academic Readmission
Upon petition to the Academic Council, a student who has been dismissed for academic reasons may be readmitted. The student must see an MPC counselor and complete and submit the “Petition for Readmission” form to the Academic Council. Upon readmission the student is placed on academic probation and must earn at least a 2.0 ("C") cumulative grade point average in order to continue enrollment.

Progress Dismissal
A student who has been on progress probation for two consecutive semesters will be dismissed when, for the third consecutive semester, the student has "W," "I," and/or "NP" grades in 50% or more of all units attempted.

Progress Readmission
Upon petition to the Academic Council, a student who has been dismissed for progress reasons may be readmitted. The student must see an MPC counselor and completes and submits the “Petition for Readmission” form to the Academic Council.

Academic Renewal
There are instances when a student's past academic record is not reflective of the student's current, demonstrated level of academic performance. The intent of the academic renewal policy is to prevent past substandard grades ("D" or "F") from deterring a student's progress toward employment, graduation, certification, or transfer. A student may request that his/her MPC record be reviewed for academic renewal by petitioning the Academic Council. The student must explain on the petition how the past record is deterring progress toward employment, graduation, certification, or transfer. If the Academic Council determines that such progress is being deterred, academic renewal will be granted under the following conditions:

1. Two years have elapsed since the substandard grades were awarded;
2. The student has subsequently achieved a grade point average of 2.0 or higher in the last 15 units of letter grades at MPC, any regionally accredited institution, or a combination thereof. If a student chooses to use courses completed outside of MPC, the student will submit an official transcript documenting those units to Admissions and Records prior to, or at the time of, petitioning for Academic Renewal. Unofficial transcripts will not be accepted;
3. The student has met with a counselor to review their transcripts and complete a supplemental worksheet. A counselor signature is required on the petition prior to submitting it to the Academic Council.

Students desiring academic renewal must complete an Academic Council petition. If all above conditions are met, academic renewal will be granted for one of the two following options:

a. Student selection of up to 18 units of substandard academic work ("D" or "F" grades);
or
b. Student selection of up to 2 entire terms of which only the substandard academic work ("D" and "F" grades) would be alleviated.

When academic renewal is granted, an annotation is made on the student's transcript indicating which grades have been alleviated from the MPC grade point average. All courses and grades remain visible on the transcript. Academic renewal action taken by Monterey Peninsula College does not guarantee that other colleges or universities will accept such action. This determination will be made by the respective institutions.

Attendance
Regular attendance and consistent study are student responsibilities. A college student is expected to attend all class meetings. Failure to attend class may prevent a student from participating fully in the educational process, thus causing the student to underperform academically. Failure to attend class may also result in being dropped from class. Each instructor establishes the standards in the syllabus. It is the student's responsibility to know the attendance requirements in each class and to be aware of his/her attendance status. When the student has been absent or expects to be absent from a class, he/she should notify the instructor of the reason for the absence.

Veterans – Attendance and Progress
Veterans and eligible dependents must initiate their claim for educational benefits through the Veteran's Resource Center on campus. After classes begin, students are required to stop by the Veteran's Resource Center to promptly notify them of any changes in their classes or contact information.
The College maintains a written record of previous education and training of the veteran or eligible person. The College is required to report the appropriate credit accepted by the College for previous education and training.

Students receiving VA education benefits must maintain both satisfactory attendance and a grade point average (GPA) of 2.00 or higher. If a student is placed on academic or progress dismissal or GPA is below 2.0, the student will not be certified for VA education benefits until the student has seen a counselor and petitioned for readmission. If readmitted, a veteran who is dismissed should contact the MPC Veteran’s Resource Center for specific details concerning continued certification of VA education benefits.

Final Examinations
A schedule of final examinations for on-campus day classes is available on the MPC website. Students are expected to take examinations when scheduled. Final examinations for classes are documented on the syllabus. Please contact your instructor for more information. Students may not take final exams after courses have ended unless an approved Incomplete Contract is on file with the Admissions and Records Office.

Plagiarism and Cheating
Academic honesty is a cornerstone of the educational community; therefore, students are expected to understand the standards of academic honesty as they pertain to students’ behavior in the classroom.

Plagiarism
It is important for students to acknowledge sources that are used for completing classroom assignments. Plagiarism is a form of academic dishonesty.

Plagiarism may be any one of the following:
1. Verbatim copying without proper documentation of the source(s).
2. Paraphrasing without proper documentation of the source(s).
3. Unacknowledged appropriation of information or ideas from someone else.

If students have any questions about these forms of plagiarism or about an assignment they are preparing, they should ask their instructor for clarification rather than risk unintentional plagiarism.

Cheating
It is important for students to act in an honest and trustworthy manner. Work performed on examinations or other forms of evaluation must represent an individual’s own work, knowledge and experience of the subject matter. Students are expected to follow the classroom rules established by the instructor.

Cheating may be any one of the following:
1. Unauthorized looking at or procuring information from any unauthorized sources or from another student’s work during an examination or from any work that will be graded or given points.
2. Unauthorized acquiring, reading or learning of test questions prior to the testing date and time.
3. Changing any portion of a returned graded test or report and resubmitting it as an original work to be regraded.
4. Presenting the work of another as one’s own for a grade or points.
5. Knowingly assisting another student in cheating.

This list is not all-inclusive and the list itself is not meant to limit the definition of cheating to just these items mentioned.

Consequences
The disciplinary action for cheating or plagiarism is up to the discretion of the instructor. The instructor may select one or more of the following options:
1. Issue an oral or written notification and warn the student that further acts of this sort will result in additional disciplinary action.
2. Issue an “NP” or a failing grade (“F”) or “0” for the assignment in question.
3. Refer the student to the Vice President of Student Services for disciplinary action.

Scholastic Honors
Highest Honors are awarded to the student whose semester grade point average is 4.0; High Honors to the student whose grade point average is 3.50-3.99; and Honors to the student whose grade point average is 3.0-3.49.

Monterey Peninsula College sponsors Chi Chapter of Alpha Gamma Sigma, the California Community College Honor Scholarship Society, and Phi Theta Kappa, the International Honor Society for community college students. Eligibility for initial, temporary, continuing, and permanent memberships depends on scholastic performance, cumulatively and by semesters.

Student Records
Impoundment of Student Records
Students who fail to comply with College rules or regulations, return property owned by the College, pay debts owed to the College, or pay for damaged College property may not be allowed to register, receive certificates and/or degrees, have official transcripts forwarded, and/or receive other services related to student records. When the student has cleared the obligation with the College, the impoundment of records will be released.

Transcripts
Only course work taken at MPC will appear on the transcript. Please visit the college website for ordering and fee information (more on page 19-20).

Programas de instrucción
Uno de los objetivos principales de Monterey Peninsula College consiste en ofrecer sus servicios y recursos a la comunidad con el fin de responder a los intereses educativos, culturales y recreativos de la comunidad. Los servicios de enseñanza incluyen programas de enseñanza diurna, nocturna y de fines de semana que se ofrecen en el campus principal de Monterey, en el Centro de capacitación en seguridad pública en Seaside, y en sitios fuera del campus, así como una variada selección de cursos de aprendizaje a distancia y cursos orientados a satisfacer las necesidades de los adultos mayores.

Para lograr dicho objetivo, Monterey Peninsula College ofrece los siguientes tipos de programas:

Carrera técnica: El programa de educación carrera técnica les ofrece a los alumnos planes de estudios básicos, técnicos y profesionales para que aprendan destrezas y conocimientos necesarios para el trabajo, avanzar en dicho trabajo y obtener certificación, certificado de logro o el título de Asociado.

De transferencia: El programa de transferencia les permite a los alumnos cursar los primeros dos años a fin de prepararse para pasar a una institución que ofrezca el título de Bachillerato. Los cursos de MPC equivalen a los que se les ofrecen a los alumnos del primer y segundo año en la Universidad de California, en la Universidad Estatal de California y en universidades privadas.

Capacitación: Se ofrece un programa de conocimientos básicos para alumnos que necesitan mejorar su nivel de rendimiento en inglés, lectura, destrezas de estudio, matemáticas, análisis crítico y demás destrezas fundamentales necesarias para cursar satisfactoriamente estudios en una universidad. Se ofrece un programa de Inglés como Segundo Idioma para alumnos cuyo idioma natal no sea el inglés. Se ofrecen centros de apoyo para mejorar conocimientos lingüísticos y matemáticos en una amplia variedad de niveles.
Para promover la asistencia a Monterey Peninsula College se ofrecen muchos cursos en la comunidad, así como también en el recinto principal y en Marina y en Seaside. Se ofrecen numerosos cursos por medio del programa de Adultos Mayores en centros para ciudadanos de la tercera edad y en otros lugares de fácil acceso. MPC ofrece también cursos en las escuelas secundarias de la comunidad.

Además, Monterey Peninsula College ofrece educación a distancia por medio de su creciente número de cursos en Internet. Para algunos de los cursos de Internet se requiere asistir a sesiones de orientación en el recinto. Por último, Monterey Peninsula College ofrece una amplia variedad de cursos por medio de educadores contratados, con lo cual se ofrecen oportunidades educativas conjuntamente con numerosos organismos y empresas de la comunidad.

Los alumnos que no dispongan de un diploma de secundaria, un Diploma de Equivalencia de Secundaria (GED) o no aprueben el Examen de Competencia de Secundaria, podrían tener que tomar un examen que se administrará independientemente para demostrar su capacidad de participar en la instrucción que ofrece MPC.

Monterey Peninsula College aceptará a los alumnos que puedan participar en la instrucción que se ofrece. Además, MPC aceptará a:

- Alumnos internacionales que dispongan de una visa de estudiante F-1 o M-1 y una puntuación mínima aceptable de 460 en el examen TOEFL, constancia de recursos económicos mientras cursen sus estudios, y la aprobación del Programa para Alumnos Internacionales.

Prioridades para la inscripción
Monterey Peninsula College concede prioridad en la inscripción de acuerdo a los mandatos estatales y a la política de la universidad. El estatus de la inscripción prioritaria se puede adquirir o perder. Las acciones tales como una matriculación exitosa pueden hacer que un estudiante obtenga una prioridad anticipada en la inscripción, mientras que las acciones tales como un estatus académico insatisfactorio podrían hacer que el estudiante pierda su prioridad en la inscripción. Los estudiantes que hayan perdido su prioridad en la inscripción y quieran apelar, podrían dirigir su petición al Consejo Académico. Para las peticiones al Consejo Académico, visite el sitio web de Admisiones y Registros. La inscripción prioritaria para los estudiantes que continúan se basa en la cantidad de unidades completadas en Monterey Peninsula College y en las unidades en progreso para el semestre actual. Las unidades completadas en otras instituciones no se considerarán. Personal militar activo, los estudiantes veteranos, Foster Youth, DSPS, EOPS, CalWorks, TRIO/SSS y los estudiantes atletas tienen fechas de inscripción prioritaria específicas. Por favor, visite el sitio web de Admisiones y Registros para obtener más información.

Residencia
RESIDENTES DE CALIFORNIA
Esta información se aplica a los ciudadanos estadounidenses, a los estudiantes con visas de residencia permanente, y a los estudiantes con visas que permiten el establecimiento de una residencia. Se les podrá pedir que presenten documentos para comprobar su residencia en California.

A los alumnos de diecinueve años de edad o mayores que han residido en California durante un mínimo de un año y un día antes de comenzar el semestre o la sesión, y que han “manifestado su intención” de residir en California un año y un día antes de comenzar el semestre o la sesión, se les clasificará como alumnos residentes para efectos de educación.

“Manifestar su intención” significa disponer de los documentos justificantes que indican la intención de hacer de California el estado donde uno reside legalmente, para lo cual se suele llenar el formulario de declaración de impuestos estatales como residente, votar como residente y no poseer documentos que contradigan la residencia de California (por ejemplo, pagar impuestos en otro estado, votar en ausencia para otro estado, solicitar un divorcio en otro estado).

Si un alumno es menor de diecinueve años de edad y sus padres o tutores cumplen con las condiciones antes mencionadas, dicho alumno reunirá los requisitos como residente de California tras la suma mís de la forma apropriada.

La categoría de no residente no cambia automáticamente.
Los alumnos clasificados anteriormente como no residentes deben llenar un formulario de Solicitud para Ser Clasificado Como Residente de California. Si ahora piden la categoría de Residente de California, dicho formulario, conjuntamente con los documentos exigidos, se debe entregar a la Oficina de Admisiones y Registros.

Una vez que llenen una Declaración de Residencia de Dependiente Militar de Estados Unidos, los dependientes de empleados activos de las Fuerzas Armadas de EE.UU. asignados a California podrán quedar exentos de pagar los derechos de matrícula que se cobran a los no residentes. Para obtener una copia del formulario, consulte la página Web de MPC. La residencia deberá ajustarse solamente durante el plazo en el que se facturan los cargos de no-residente. Al finalizar el plazo, se terminarán los cargos. No se cambiará de residencia de manera retroactiva.

NO RESIDENTES:
Los alumnos que no cumplen con el requisito de residencia de California, tales como estudiantes internacionales y alumnos que disponen de visas que les impiden establecer residencia en California, serán clasificados como “no residentes” y quedarán sujetos a los derechos de matrícula que se cobran a los no residentes.

La ley aplicable a la determinación de residencia para efectos de la matrícula se encuentra en el Código de Educación de California y en el Título 5 del Código de Reglamentos de California. En la Oficina del Decano de Servicios al Alumno existe una copia de dichas leyes y reglamentos disponible al público.

Matrícula
Horario de clases
Para cada semestre o sesión, MPC prepara un horario de clases en la página Web de MPC donde se indican las fechas de matrícula exactas y se detallan los procedimientos de matrícula, los cursos que se ofrecen, los derechos de matrícula y demás información.

Asistencia como oyente
Los reglamentos generales del Distrito prohíben que los alumnos asistan como oyentes a los cursos. Dichos alumnos deberán matricularse en cada curso, y no habrán de coincidir los horarios de las clases. Los alumnos pueden matricularse únicamente en un curso por período programado.

Procedimientos de matrícula
Los estudiantes de Monterey Peninsula College deben utilizar la web (WebReg) para matricularse. Monterey Peninsula College ha adoptado un sistema de matriculación prioritaria para matricular a los estudiantes. Por favor vaya a www.mpc.edu/admissions para obtener las fechas de matriculación prioritaria. Todo alumno debe pagar todas las deudas con MPC antes de matricularse.

Los alumnos no deberán matricularse en más de una clase que tenga el mismo número de curso que se reúna en horas, lugares o días distintos en cualquier semestre o sesión.

El alumno es responsable de cerciorarse de su matrícula oficial en los cursos apropiados. Los estudiantes siempre deben hacer y guardar una copia de cualquier transacción que realicen para conservarla en sus propios archivos.

Cambio de programa
Adición: En general, un cambio para el cual se necesita agregar un curso al horario inicial de clases de un alumno se considera como adición. Las fechas exactas durante las cuales el alumno puede agregar un curso aparecen en la página Web de MPC.

Abandono: El alumno tiene la responsabilidad de retirarse oficialmente de los cursos. Puede retirarse de los cursos de un semestre de duración hasta el último día de la cuarta semana de instrucción o al 75% de una clase de un semestre de duración (o al 60% de cursos de menos de un semestre de duración), lo que sea menos. Para retirarse oficialmente de un curso dentro del plazo especificado, un estudiante que califique podrá abandonar una clase ingresando en WebReg del sitio Web (www.mpc.edu). Para obtener asistencia con WebReg, por favor visite la Oficina de Admisiones y Registros.

Verificación de prerequisitos
La Universidad realiza una verificación de los prerequisitos obligatorios. Si el o los cursos de prerequisito fueron completados en otra universidad, se debe completar el Formulario de verificación de prerequisitos junto con la documentación requerida y presentar todo ante el Departamento de consejería en el Edificio de servicios al estudiante. Si hay un prerequisito en progreso en otra institución, no se podrá usar para la verificación del prerequisito hasta haber logrado una calificación final. Si el o los cursos de prerequisito fueron completados en MPC antes de 1995, complete el Formulario de verificación de prerequisitos y presentelo al Departamento de consejería a fin de que controles su registro previo de MPC. Si el o los cursos de prerequisito fueron completados en MPC en el otoño de 1995 o posteriormente, no es necesario el Formulario de verificación de prerequisitos.
Cambios en la repetición y abandono de cursos
A partir del verano de 2012, Monterey Peninsula College implementó nuevas limitaciones con respecto a las repeticiones y abandonos en un curso. Estos cambios se dispusieron en el Título 5 del Reglamento del Consejo Superior. Los estudiantes que repitan un curso en el que previamente hayan recibido una calificación inferior a D, F, NC, NP o un símbolo no-evaluativo W (Abandono), podrán inscribirse hasta tres veces.

Se les recomienda a los estudiantes elegir sus cursos cuidadosamente cada trimestre para garantizar que los finalicen. Esta nueva normativa tiene carácter retroactivo al otoño de 1995. Por lo tanto, puede suceder que algunos estudiantes hayan agotado el límite de tres inscripciones por repetición y abandono.

Se les recomienda a los estudiantes elegir sus cursos cuidadosamente cada trimestre para garantizar que los finalicen. Esta nueva normativa tiene carácter retroactivo al otoño de 1995. Por lo tanto, puede suceder que algunos estudiantes hayan agotado el límite de tres inscripciones por repetición y abandono.

Los estudiantes deben hacer clic en “View Grades” en Webreg para ver su historial académico actual no oficial para determinar la manera en que pueden verse afectados por esta nueva política. Si tiene más preguntas, comuníquese con la Oficina de Admisiones y Registros al número (831) 646-4002 y, en caso de duda, también puede consultarlo a un consejero.

Repetición de cursos
El alumno podrá repetir un curso únicamente si cumple con las siguientes condiciones:

1. La nota de calificación anterior del alumno fue una D, F, NC o NP; o bien, el alumno se retiró del curso y recibió una W; después del segundo intento y de recibir una calificación de D, F, NC o NP, el estudiante deberá solicitar un tercer y último intento al consejo Académico; o

2. Se indica en el catálogo de MPC y en el horario de clases si el curso se puede repetir y el número de veces que se puede repetir; después del segundo intento y de recibir una calificación de D, F, NC o NP, el estudiante deberá solicitar un tercer intento al consejo Académico; o

3. El alumno recibe del Consejo Académico permiso previo por escrito si puede demostrar que debe repetir el curso para avanzar con el fin de obtener trabajo, graduarse, recibir un certificado o transferirse a otra universidad.

4. Es posible que se requiera una solicitud para los cursos de experiencia de trabajo cooperativa, atletismo intercolegial y DSPS (Programas y servicios de apoyo por discapacidad). Los estudiantes que deseen presentar una solicitud de repetir un curso al consejo académico deben presentar una solicitud de repetición (Repeat Petition), disponible en la oficina de ingresos y registros (Admissions and Records Office) y en nuestro sitio web en www.mpc.edu/admissions/forms

Es necesario contar con las firmas de los asesores para algunos tipos de repeticiones de cursos.

Número de horas de clases y de estudio
El alumno de tiempo completo debe llevar un mínimo de doce unidades por semestre. Para cumplir con los requisitos del título de Asociado dentro de los dos años, el alumno debe concluir un promedio de quince unidades por semestre o treinta unidades por año, incluyendo la sesión de verano. Todos los cursos deberán ser aplicables a dicho título. No se le permite al alumno matricularse en más de dieciocho unidades en cada semestre ordinario; y para la sesión de verano, en más de dos cursos, más uno de actividad física. Los estudiantes que superen la cantidad máxima permitida pueden recibir autorización de un asesor para agregar unidades adicionales.

Programa de éxito y apoyo estudiantil
El proyecto de ley del senado 1456 enmendó y cambió el nombre de la Ley de matriculación de 1986 (Matriculation Act of 1986) a Ley Seymour-Campbell de éxito del estudiante (Seymour-Campbell Student Success Act) de 2012. La nueva legislación, conocida como el Programa de éxito y apoyo estudiantil (Student Success and Support Program) entró en vigencia el 1 de enero de 2013 y será implementado en etapas a lo largo de un plazo de cinco años. El Programa de éxito y apoyo estudiantil apoya la transición de nuevos estudiantes matriculados (no exentos) al instituto terciario proporcionándoles los servicios necesarios de evaluación, orientación, asesoramiento / planificación de la educación y seguimiento. Los estudiantes deben completar un plan de evaluación, orientación y educación antes de su fecha de matriculación prioritaria.

Entre las responsabilidades de la escuela terciaria están:
1. Proporcionar políticas claras que reflejen los derechos y responsabilidades de los estudiantes y otras políticas del Programa de éxito y apoyo estudiantil.

2. Proporcionar un proceso de ingreso y registros que le permita a la escuela terciaria obtener la información exigida por el estado que se usará como fundamento para proporcionar servicios a los estudiantes.

3. Proporcionar un proceso de evaluación usando múltiples pruebas para determinar la preparación académica en Inglés, Lectura y Matemática. Los resultados de estas evaluaciones serán utilizados por la escuela terciaria para ayudar a los estudiantes en la selección de cursos académicos. Hay evaluaciones adicionales disponibles en áreas de estudio/capacidades de aprendizaje/intereses e intereses técnicos de la carrera.

4. Proporcionar un proceso de orientación diseñado para familiarizar a los estudiantes con los programas y servicios de la escuela terciaria, las instalaciones y el campus, las expectativas académicas y las políticas y los procedimientos del instituto terciario.

5. Proporcionar servicios de asesoramiento para ayudar a los estudiantes a seleccionar cursos, desarrollar un plan de educación para el estudiante y usar los servicios de apoyo del campus. Se proporcionarán servicios adicionales de consejo y asesoramiento a los estudiantes que no han declarado sus metas educacionales, están matriculados en cursos de capacidades básicas, están en un periodo de prueba/suspensión o han sido identificados como estudiantes de alto riesgo.

6. Proporcionar el desarrollo de un plan de educación estudiantil completo una vez que el estudiante ha identificado un curso de estudio.

7. Establecer un proceso para controlar el progreso de los estudiantes y proveer la asistencia necesaria para que alcancen sus metas educacionales.

Las responsabilidades del alumno consisten en:
1. Presentar expedientes académicos oficiales de todas las escuelas secundarias y universidades a las cuales ha asistido.

2. Obtenir y leer el catálogo de MPC, el horario de clases, las hojas y demás materiales que se le ofrecen al alumno y en los cuales se detallan las normas generales y procedimientos de dicho centro.

3. Indicar como mínimo una meta educativa general al ingresar.

4. Declarar una meta educativa específica después de cursar un mínimo de quince unidades.

5. Participar en la evaluación, orientación, servicios de orientación o asesoramiento y demás servicios de apoyo complementarios que MPC estima necesarios para que el alumno alcance las metas educativas que se propone.
6. Asistir a todas las clases y cumplir con todo el trabajo de sus cursos
7. Terminar los cursos y seguir avanzando hacia los objetivos educativos establecidos.

Derechos de matrícula
Las cuotas y la matrícula son pagaderas en el momento de la matriculación usando dinero en efectivo, cheque, giro postal, VISA o MasterCard.

Todas las cuotas y los costos de matriculación pueden cambiar sin notificación previa.

Gastos
Cuota de matriculación en el instituto terciario comunitario: Los estudiantes deben pagar una cuota de matriculación de $46.00 por unidad. No se requiere cuota de matriculación a los estudiantes que son residentes de California y reciben beneficios bajo el Programa de asistencia temporal para familias necesitadas (Temporary Assistance for Needy Families Program), el Programa de seguridad de ingresos/State Suplementary Program, o del Programa de asistencia general (General Assistance Program). La oficina de servicios financieros estudiantiles (Student Financial Services) determina la elegibilidad antes de la matriculación. La cuota de matriculación es reembolsable para los cursos que se abandonan antes de finalizar la segunda semana de los cursos semestrales y antes de la primera clase para los cursos que duran más de una semana pero menos de un semestre.

Cuota de la escuela laboratorio para la niñez temprana: Se puede designar una cuota opcional de $3.00 para apoyar la escuela laboratorio para la niñez temprana (Early Childhood Laboratory School) en el campus. La cuota para la escuela laboratorio para la niñez temprana es una donación y no es reembolsable.

Cuota de salud: Todos los estudiantes deben pagar una cuota de salud de $20.00 por semestre o $17.00 por las clases de verano. Se pueden hacer excepciones a esta cuota a través de la oficina de servicios de salud estudiantil (Student Health Services), antes de matricularse, para los estudiantes que utilizan la plegaria para la sanación (lo cual debe ser verificado por escrito por el enfermero o enfermera del instituto terciario).

La cuota de salud es reembolsable si se abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso.

Cuota por materiales de instrucción: Monterey Peninsula College puede exigir que los estudiantes que se matriculan en algunos cursos paguen cuotas de materiales, si los materiales necesarios para la clase/el laboratorio se usan para producir un producto final y poseen un valor que continúa para el estudiante fuera del salón de clases/laboratorio. Las cuotas de materiales son reembolsables si se abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso.

Matrícula para no residentes: Los estudiantes clasificados como no residentes también deben pagar una matrícula para no residentes. La matrícula para no residentes para el año académico 2018-2019 es de $258.00 por unidad, además de la cuota de matriculación.

Permisos para estacionar: Los estudiantes pueden comprar permisos para estacionar semestrales o anuales a través de WebReg (vaya a "www.mpc.edu/parkingpermits"). Puede encontrar información sobre las cuotas de estacionamiento actuales y sobre el estacionamiento en el sitio web bajo Campus Safety (Seguridad en el campus) o ingresando la palabra “parking” (estacionamiento) en la ventana de búsqueda. Los vehículos sin permisos para estacionar semestrales o anuales deben exhibir un permiso para estacionar diario disponible en las máquinas expendedoras de permisos diarios ubicadas en el campus. No se reembolsará ninguna diferencia entre las tasas de estacionamiento de los permisos semestrales y anuales. La cuota de permiso para estacionar es reembolsable.

Los permisos para estacionar deben devolverse, si se han recibido, a la oficina de ingresos y registros dentro de las dos primeras semanas del semestre. En el caso de los estudiantes que no han recibido un permiso antes del final del plazo de reembolso, se debe recibir una solicitud de reembolso antes de tal fecha. De lo contrario, no se hará ningún reembolso. Si no se ha pagado, se seguirá debiendo ese costo a la institución terciaria. Por favor vea el sitio web de ingresos y registros para obtener información sobre cómo presentar la solicitud y las cuotas.

Cuota del cuerpo estudiantil: La cuota de $5.00 para el cuerpo estudiantil permite la emisión de identificaciones con foto y apoya el gobierno estudiantil, además de permitir al estudiante recibir descuentos de los minoristas locales, préstamos de corto plazo de ASMPC para casos de emergencia, entradas gratuitas o de precio reducido a todos los eventos deportivos, bailes y otras actividades culturales, sociales o académicas patrocinadas por Monterey Peninsula College. La cuota del cuerpo estudiantil es reembolsable si se abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso.

El formulario está disponible en el sitio web de MPC, en la oficina de ingresos y registros, y en la oficina de actividades estudiantiles.

Cuota de uso del centro estudiantil: Todos los estudiantes que toman por lo menos un curso en el campus de Monterey (excluyendo los cursos en línea y los que solo duran un fin de semana) deben pagar la cuota de uso del centro estudiantil de $10.00 por semestre o $5.00 por las clases de verano. Esta cuota ayuda a pagar un préstamo del gobierno que se obtuvo para construir y mantener el centro estudiantil. La cuota de uso del centro estudiantil es reembolsable si se abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso.

Cuota de representación estudiantil: Esta cuota de $1.00 se cobra en el momento de la matriculación para proporcionar a los representantes del gobierno estudiantil los recursos necesarios para viajar y asistir a conferencias para impulsar su meta de dar a conocer los puntos de vista de los estudiantes ante las entidades políticas. La cuota de representación estudiantil es reembolsable si se abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso.

Libros de texto: Los libros de texto son esenciales y, aunque sus precios varían, los libros de texto de la mayoría de las clases cuestan aproximadamente $100.00. Los libros de texto de contabilidad, enfermería, matemática y dibujo técnico pueden costar $150.00 o más.

Reembolsos: Cuotas
Los estudiantes pueden solicitar reembolso de la cuota de uso del centro estudiantil, la cuota de salud, la cuota del cuerpo estudiantil y/o la cuota de representación estudiantil si abandonan todos los cursos dentro de los plazos establecidos para el reembolso. Para los cursos que duran un semestre completo, típicamente ese plazo termina al final de la segunda semana de clase. Los cursos de corta duración tienen plazos individuales, que generalmente son muy cortos. Por favor consulte el eslabón de fechas de cursos en WebReg o pida más información en la oficina de ingresos y registros sobre los plazos de vencimiento para recibir reembolso por un curso. Lo mismo es aplicable para la cuota de matriculación y la cuota de materiales. No se autorizarán reembolsos por los cursos abandonados después del plazo apropiado establecido.

Se podrá retener una cuota de procesamiento de reembolso de $10 por semestre/sesión del reembolso de la cuota de matriculación por los cursos abandonados que no han sido cancelados por el instituto terciario.

Proceso de solicitud de reembolso

Hay solicitudes del consejo académico disponibles en la oficina de ingresos y registros y en el sitio web de MPC.

¿Qué es asistencia financiera?
La asistencia financiera es dinero que se otorga, paga o presta en nombre suyo para ayudarte a pagar el instituto terciario. El SAP se controla al final de cada semestre/sesión. Para mantener un progreso académico satisfactorio durante un semestre dado, el estudiante debe:
- Tener un promedio de calificaciones (Cumulative Grade Point Average) (CGPA): de por lo menos 2.0 (promedio C).

Criterios académicos

Plagio y conducta deshonesta
La honradez académica es la piedra angular de la comunidad educativa, por tanto, se da por sentado que el alumno entiende los criterios de honradez académica relacionados con su conducta en el aula.

Plagio
Es importante que los alumnos reconozcan las fuentes que utilicen para hacer las tareas asignadas en el aula. El plagio es una forma de falta de honradez académica.

Plagio puede ser cualquiera de las siguientes situaciones:
1. Copiar textualmente sin la debida justificación de las fuentes.
2. Parafrasear sin reconocer debidamente las fuentes.
3. Apoderarse de información o ideas de otras personas sin darles su reconocimiento.

Si el alumno tiene alguna pregunta sobre los tipos de plagio mencionados o sobre la tarea que está preparando, en lugar de correr el riesgo de cometer plagio sin querer, deberá pedirle al instructor que le aclare la situación.

Conducta deshonesta
Es importante que el alumno actúe en forma honrada y digna de confianza. El trabajo que se realiza en exámenes o demás tipos de evaluación debe representar el trabajo, los conocimientos y la experiencia en el tema propios de la persona. Se da por sentado que el alumno habrá de seguir los reglamentos académicos establecidos por el instructor.

Las siguientes situaciones pueden ser consideradas como conducta deshonesta:
1. Fijarse sin autorización en información de cualquier fuente no autorizada o del trabajo de otro alumno durante un examen, o de cualquier trabajo que será calificado o recibirá puntuación, o bien, adquirir de alguna forma dicha información.
2. Adquirir, leer o aprenderse sin autorización preguntas de exámenes antes de la fecha y hora del examen.
3. Cambiar cualquier porción de un examen o informe calificado devuelto y volver a entregarlo como trabajo original para que vuelva a ser calificado.
4. Presentar el trabajo de otra persona como propio para recibir una nota o puntos.
5. Ayudar, a sabiendas, a otro alumno a hacer algo deshonesto

Esta lista no es completa, y el propósito de ella no es limitar la definición de conducta deshonesta a sólo los puntos mencionados.

Consecuencias
La medida disciplinaria por hacer algún acto deshonesto o plagiar queda a discreción del instructor, quien podrá seleccionar una o más de las siguientes opciones.
1. Emitirle una notificación oral o escrita y advertirle al alumno que los actos adicionales de ese tipo resultarán en medidas disciplinarias adicionales.
2. Emitir un N o una nota de reprobación (F o 0) por la tarea en cuestión.
3. Remitir al alumno al vicepresidente del Departamento de Servicios al Alumno para que se le apliquen medidas disciplinarias.

Lactation Rooms

MPC is committed to our students who are pregnant or parenting. We want to ensure that all pregnant students stay in school and meet their education goals.

As an educational institution, offering a private, clean and comfortable space where lactating mothers can express breast milk, meets the state law, offers our children optimum health, and provides the campus’ breastfeeding mothers support and encouragement to continue breastfeeding.

There is a private lactation room at Student Health Services, located on the lower level of our Student Services Building room 101. It is available on a first come, first served basis. If this room is not available or you are at the Education Center at Marina or our Public Safety Training Center, any faculty or staff member can assist in finding a private room for you on campus.

We hope you enjoy the use of our lactation room. Students have the legal right to breastfeed anywhere on campus as they see fit (Right to Breastfeed in Public (1997) - Assembly Bill 137 Civil Code Section 43.3). Notwithstanding any other provision of law, a mother may breastfeed her child in any location, public or private, except the private home or residence of another, where the mother and the child are otherwise authorized to be present.

Student Support Services (TRIO SSS)

Transfer Services

See Career & Transfer Resource Center on page 48.

Veteran’s Resource Center

The Veteran’s Resource Center staff, located in the Student Center, assist students to meet the needs of veterans and eligible dependents and inform students of VA educational benefits and counseling services. A person who is eligible for VA education benefits and who wishes to use them at Monterey Peninsula College should stop by the Veteran’s Resource Center. Before the Certifying Official will certify enrollment to the Veteran’s Administration (VA), it is essential for students to make an appointment with an MPC counselor to have a Student Education Plan completed. Only courses toward a degree listed on the Student Education Plan will be certified for VA payments. An initial claim may take up to three months processing time before the student receives his/her first payment.

Students requesting certification for the second semester must request all official transcripts from other colleges and Joint Services Transcript be sent to MPC Admissions and Records office to be evaluated and on file at MPC before the end of their first semester. Students must then have a counselor complete a VA Education Plan documenting units completed and courses needed to complete the educational goal. Students will not be certified a second time without this plan. Please note that because of the need for accuracy, counselors will only complete VA Education Plans during scheduled appointments. Students are encouraged to call 831-646-4025 to schedule an appointment with a counselor.

Veterans/Active Duty Priority Registration

Upon completion of the application for admission, Monterey Peninsula College has established registration and enrollment priority procedures in accordance with Title 5.

For Veterans or active duty members who will not be using VA education benefits but are asking for priority registration, the Veteran must provide a copy of their DD214 and the active service member must provide copy of their orders to be viewed by a Veteran’s Resource Center staff member.

The ASMPC Council is the elected student government at MPC. It is composed of twenty-three students elected by the student body every spring. It consists of ten Senators, President, Vice President, Treasurer, Secretary, Director of Student Welfare, Statewide Representative, Director of Clubs, Director of Activities, Director of Representation, Student Trustee, Chief Justice, and two Associate Justices. There are also many nonelected positions such as committee representatives. The ASMPC Council oversees the work of the Student Representation Council, the Inter-Club Council, the Activities Council, and the Student Welfare Council. Intercollegiate Athletics
Monterey Peninsula College offers intercollegiate athletic teams for men and women in fourteen sports. The seven men’s sports are football, basketball, baseball, golf, soccer, cross country, and track and field. The seven women’s sports are basketball, volleyball, soccer, softball, tennis, cross country, and track and field. Monterey Peninsula College is a member of the Coast Conference which includes seventeen community colleges located between Monterey in the south and San Francisco at the north.

Monterey Peninsula College abides by the provisions of the California Community College Athletic Association (CCCAA) Constitution and Bylaws as well as specifications imposed by the Coast Conference and the Northern California Football Conference. A copy of the CCCAA Constitution and Bylaws is available in the Athletic Director’s office. The Vice President of Student Services in consultation with the Athletic Director will interpret the CCCAA regulations for all persons concerned. In order to be eligible for athletic competition, a student must be enrolled and attending class in a minimum of 12 semester units during the season of sport. In order to be eligible for a second season of that sport, a student must complete and pass 24 semester units between seasons of competition while maintaining a 2.0 grade point average. Additionally, student athletes must complete at least 6 units during the preceding academic term in which the student is enrolled as a full-time student at the certifying institution. Students will be assisted with establishing athletic eligibility, but the process often requires checking of records. Students are encouraged to start the procedure well in advance of the season of competition.

The CCCAA allows member colleges to recruit those high school athletes residing within their district and the districts contiguous to their colleges. High school student athletes living outside of the college’s recruiting area, but within the State of California, may be contacted by telephone or other correspondence. Out-of-state athletes interested in attending Monterey Peninsula College are required to initiate first contact with the college athletic department. For additional information, contact the Athletic Director or head coach of the particular sport in which you are interested by visiting the MPC athletic webpage.

Student Body Cards
The ASMPC Student Body Card costs $5 per semester. This fee is optional. Among the benefits to cardholders are:

- Free admission to athletic events sponsored by MPC
- Eligibility for ASMPC emergency short-term loans
- Local merchants’ discounts
- Discounted admission to all ASMPC-sponsored events
- Discounted MST Bus Passes
- Access to ASMPC Food Pantry

More information on how to obtain a Student Body Card is available at the ASMPC Office in the Student Center and at the Education Center at Marina.

Student Representation Fee
The Student Representation Fee of $1.00 is an optional fee for the purpose of providing student government representatives the means to travel and attend conferences to enhance their goal in bringing forth the students’ view at city, county, and district governments, as well as state legislative offices and other government agencies.

Student Organizations and Clubs
MPC student organizations and clubs give students the ability to provide each other with diverse new experiences beyond the classroom. They provide MPC students with an opportunity to organize, meet and work together as a group. A common interest is what brings students together to form a student organization.

Student organizations can be social, creative, recreational, educational, cultural, religious or political in nature. Students may participate in club activities to expand an existing interest, to experiment with a new interest or to enhance a classroom experience. Student organizations also provide an avenue to meet new people, develop friendships and have fun.

Students should contact the Student Activities Coordinator in the Student Activities Office (831-646-4192) for information.

Student Trustee
The Student Trustee serves in a very influential position on campus. Serving for one full year beginning on July 1 as a member of the Monterey Peninsula College District Governing Board of Trustees, the Student Trustee may cast an advisory vote. The Governing Board is responsible for the “development, management, control and operation of all properties, programs, policies and procedures of the District and College.” The Student Trustee is also a voting member of ASMPC (Associated Students of Monterey Peninsula College).

Students who are interested in learning more about this position should contact the Student Activities Office or the Superintendent/President of the College.
Student Rights and Responsibilities

The purpose of this statement is to inform students of their rights and responsibilities at Monterey Peninsula College. The policies and procedures as set forth in this statement are for institutional and student use but cannot be separated from public laws and regulations; therefore, everything stated herein must be considered within the limits of the law.

I. IN THE CLASSROOM

A. Protection of Freedom of Expression
   Students are free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study in which they are enrolled.

B. Protection Against Improper Academic Evaluation
   Students shall not be evaluated in a prejudiced or capricious manner. At the same time, students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Standards relating to matters of class attendance, punctuality, dress (e.g., safety goggles and uniforms), and other similar classroom requirements, where essential in evaluation, should be clearly communicated by the instructors to the students enrolled in the courses where they apply.

C. Protection Against Improper Disclosure
   Information about student views, beliefs, and political associations which employees acquire in the course of their work is considered confidential. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character for such matters as letters of recommendation and security checks may be provided under appropriate circumstances, with the knowledge and consent of the student.

II. STUDENT RECORDS

A. Definition of Records
   The following files, records, and documents are maintained by the College as “Education Records”: Applications for Admission, Add/Drop and Registration Forms, academic transcripts, transcripts sent by other institutions, general education certifications, graduation petitions, high school advanced placement forms, instructor class rosters, placement test scores, counseling records, financial aid applications, campus employment information, veterans folders relating to educational certification and benefits, discipline records, and athletic eligibility forms.

B. Right to Access
   Any current or former student shall have the right to access his/her own “Education Records” as defined above or those that meet the definition of a “student record” in Title 5 of the California Code of Regulations, if debts are cleared. Such access shall be provided during regular office hours, and the appropriate College official will require identification and a written request from the student, provided that access is granted where authorized by law no later than five working days following the date of the request.

C. Location of Records
   Most of the above records are housed in the Student Services Building on campus. The Dean of Student Services has overall responsibility for such records. The Dean's designee shall provide specific directions to students, upon request, concerning which College officials to contact to make a request for access to any records.

D. Directory Information
   The College may release directory information when, in the opinion of the Dean of Student Services, the release of such information is in the best interest of students. Directory information for students includes the following: name, address, telephone number, date of birth, major field of study, class schedule, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and certificates received, and the most recent previous public or private school attended.

E. Confidentiality of Records
   Information from Education Records will be available only to legally authorized persons. The express consent of the student is required for access by any other persons. No records will be kept which reflect the political and religious activities or beliefs of students. All College employees are to respect confidential information about students which they acquire in the course of their work. Access to student records may be permitted to the following:
   1. Officials and employees of Monterey Peninsula College, provided that any such person has a legitimate educational reason for inspecting a record.
   2. Federal and state officials so authorized access by Title 5.
   3. Upon written permission from the student, officials of other public or private schools where the student seeks or intends to enroll.
   4. Agencies or organizations in connection with a student’s application for or receipt of financial aid, provided that information permitting the personal identification of students may be disclosed only as necessary for purposes relating directly to that aid.
   5. Accrediting organizations in order to carry out their accrediting functions.
   6. Organizations conducting studies for, or on behalf of, educational agencies or institutions for purposes allowed in Title 5 and so long as information that allows personal identification of a student is kept confidential and destroyed when no longer needed.
   7. Appropriate persons in connection with an emergency if the information is necessary to protect the health or safety of the student or other persons.

F. Impoundment of Records
   Whenever a student is delinquent through failure to comply with College rules or regulations, to pay College debts, or to return property owned by the College, the student's records may be impounded. A student whose record is impounded shall not be allowed to register for subsequent instruction, request official transcripts of work completed, and/or receive other services at the College which relate to his/her records.
III. STUDENT AFFAIRS

A. Freedom of Association
Students are free to organize and join associations to promote their common interests.

1. The policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in the organization and are enrolled at Monterey Peninsula College.

2. Affiliation with an extramural organization shall not of itself disqualify a student organization from institutional recognition.

3. Campus advisors are required; each organization is free to choose its own advisor. Campus advisors may advise organizations in the exercise of responsibility, but they will not have the authority to control the internal policies of such organizations.

4. Student organizations are required to submit to ASMPC a club activation, advisor agreement, a current list of members, and club Constitution.

5. Campus organizations, including those affiliated with an extramural organization, shall be open to all Monterey Peninsula College students without respect to race, creed, or national origin.

B. Freedom of Inquiry and Expression

1. Students and student organizations are free to examine and to discuss all questions of interest to them, to express opinions publicly and privately; and to support causes by orderly means which do not disrupt the regular and essential operation of the institution. At the same time, students shall make it clear to the academic and the larger community that, in their public expressions or demonstrations, students or student organizations speak only for themselves.

2. Students are allowed to invite and to hear any person of their own choosing. Routine procedures are required by the College before a guest speaker is invited to appear on campus to insure that there is orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. The institutional control of campus facilities is not used as a device of censorship. Those in charge of a program shall make it clear to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed, either by the sponsoring group or the institution.

C. Student Participation in Institutional Governance
As constituents of the academic community, students are free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body. The student body may participate in the formulation and applications of institutional policy affecting academic and student affairs through student government. The Associated Students of Monterey Peninsula College (ASMPC) is the institutionally recognized system of student government which has express responsibility for a student activities program designed to benefit the College and contribute to the welfare of the students. The Student Council of ASMPC formulates and executes student government policies; administers a budget; plans and conducts social, club, recreational, and leisure-time programs in accordance with the ASMPC constitution and other laws and regulations; serves in a liaison capacity between the students and the administration on matters concerning the Student Center; makes student appointments to campus committees; assists in the coordination of club activities; and promotes opportunities in volunteer work. Any matter of student governance that conflicts with College policy shall be resolved by the administration after opportunities have been given to the Student Council to either correct the matter or to discuss the matter completely with the administration.

IV. OFF CAMPUS

A. Exercise of Rights of Citizenship
Students enjoy the same freedom of speech, peaceful assembly, and right of petition as do other citizens. As members of the academic community, they are subject to the obligations which accrue to them by virtue of this membership. Faculty members and administrative officials should ensure that institutional powers are not employed to inhibit intellectual and personal development of students.

B. Institutional Authority and Civil Penalties
Activities of students may, upon occasion, result in violation of law. In such cases, Monterey Peninsula College officials may apprise students of sources of legal counsel and may offer other assistance. Students who violate the law may incur penalties prescribed by civil authorities. Only where the institution's interests as an academic community are clearly involved will the special authority of Monterey Peninsula College be asserted. The student who incidentally violates institutional regulations in the course of his/her off-campus activity, such as those relating to class attendance, is subject to no greater penalty than would normally be imposed. Institutional action is independent of community pressure.

V. STANDARDS OF STUDENT CONDUCT
In developing responsible student conduct, disciplinary proceedings play a role substantially secondary to example, counseling, guidance, and admonition. At the same time, educational institutions have a duty and the corollary disciplinary powers to protect their educational purpose through the setting of standards of scholarship and conduct for the students who attend them and through the regulation of the use of institutional facilities.

A. Campus Community Values
Monterey Peninsula College considers the following principles essential to its educational mission and its community life:

1. Mutual respect between students and faculty,
2. Pursuit of studies with honesty and integrity,
3. Respect for rights of others,
4. Courteous treatment of everyone,
5. Respect for college and personal property, and
6. Compliance with all rules and regulations.

B. Grounds for Student Discipline
The following conduct shall constitute good cause for discipline, including but not limited to the removal, suspension, or expulsion of a student. Students shall be subject to College discipline for any of the following kinds of misconduct which occurs at any time on campus or at any off-campus facility or College-approved or -sponsored function:

1. Causing, attempting to cause, or threatening to cause physical injury to another person;

2. Possession, sale, or otherwise furnishing any firearm, knife, explosive, or other dangerous object, including but not limited to any facsimile firearm, knife, or explosive, unless, in the case of possession of any object of this type, the student has obtained written permission to possess the item from a District employee, which is concurred by the Superintendent/President or designee;

9. Committing sexual harassment as defined by law or by the District policies and procedures;

10. Engaging in harassing or discriminatory behavior based on disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other status protected by law;

11. Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or namecalling; social isolation or manipulation; and cyberbullying;

12. Willful misconduct that results in injury or death to a student or to District personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the District or on campus;

13. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel;

14. Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty as defined by the College catalog;

15. Dishonesty; forgery; alteration or misuse of District documents, records or identification; or knowingly furnishing false information to the District;

16. Unauthorized entry upon or use of District facilities;

17. Lewd, indecent or obscene conduct or expression on District-owned or controlled property, or at District sponsored or supervised functions;

18. Engaging in expression which is obscene, libelous or slanderous, or which so incites students as to create a clear and present danger of the commission of unlawful acts on District premises, or the violation of the lawful District regulations, or the substantial disruption of the orderly operation of the District;

19. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct;

20. Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten or class notes, except as permitted by any board policy or administration procedure.

C. Applicable Penalties

In all situations a student shall be informed of the nature of the charges against them and be provided an opportunity to refute them. Arbitrary actions shall not be taken by the College and a decision may be appealed. Disciplinary action that may be taken because of student misconduct includes a variety of sanctions.

Such sanctions are listed below in degree of severity, and may be applied according to the severity of the offense:

1. Admonition: An oral statement to the student offender that the student has violated College rules.

2. Warning: Notice to the student, orally or in writing, that continuation or repetition of the conduct found wrongful, within a period of time stated in the warning, may be cause for more severe disciplinary action.

3. Censure: Written reprimand for violation of a specified regulation including the possibility of more severe disciplinary action in the event of conviction for the violation of any College regulation within a period of time stated in the letter of reprimand.

4. Disciplinary Probation: Exclusion from participation in privileges or extracurricular activities as set forth in the notice of disciplinary probation for a specified period of time.

5. Restitution: Financial liability for damage to or misappropriation of property. Restitution may take the form of appropriate service to repair or otherwise compensate for damages.

6. Short-term (Summary) Suspension: Emergency exclusion from campus and/or classes for a period not to exceed 10 days. The Superintendent/President or designee may immediately suspend a student when the Superintendent/President or designee determines that such action is required in order to protect lives or property or to ensure the maintenance of appropriate order. The time of the suspension shall be limited to the period necessary for the purposes of the suspension and in any case, no more than ten days. The student may be summarily suspended without a conference or hearing, but oral or written notice to the student of the suspension and the reasons for the suspension must be provided to the student or the student’s address as soon as possible. A conference shall be scheduled as soon as possible, but not later than 72 hours from the time of the suspension, to review the action with the student and to determine whether further sanctions are to be applied.

7. Long-term Suspension: Within 10 days after the meeting described in #6, the Superintendent/President or designee shall pursuant to a recommendation from the Dean of Student Services, decide whether to impose a long-term suspension. Written notice of the Superintendent/President’s decision shall be provided to the student. The notice will include the right of the student to request a formal hearing before a long-term suspension is imposed, and a copy of AP 5520 describing the procedures for a hearing.

8. Expulsion: Within 7 days after the meeting described in #7, the Superintendent/President shall pursuant to a recommendation from the Vice President of Student Services, decide whether to recommend expulsion to the Governing Board. Written notice of the Superintendent/President shall be provided to the student. The notice will include the right of the student to request a formal hearing before expulsion is imposed and a copy of AP 5520 describing the procedures of a hearing.
D. Administration of Discipline

Procedural fairness shall be the basis for all disciplinary actions. Practices in disciplinary cases will vary in formality with the gravity of the offense and the sanctions which may be applied. There shall be no obligation for the College to replicate a formal court system, nor is there a need to provide for “adversary” proceedings. Due process requires that the student be informed of the nature of the charges against the student, that the student be given a fair opportunity to refute the charges, that the institution not be arbitrary in its actions, and that there be provision for appeal of a decision. With fairness as a basis for action, the responsibility for such action is the responsibility of the following individuals or groups:

1. The Classroom Instructor
   a. May act when minor infractions disturb normal classroom procedure.
   b. May suspend, for good cause (See V. A., Standards of Conduct), any student from the instructor’s class for the day of the suspension and the day following. The Dean of Student Services shall be notified of such suspension, and the student shall be directed to report to the Dean. The parents of a minor student shall also be notified of the suspension.
   c. May drop students from class for failing to meet academic and attendance requirements.

2. The Campus Security Officer
   a. Shall act directly on parking and traffic violations.
   b. Shall act directly in matters of emergency and in harmony with local and state laws, but shall immediately notify the Vice President of Student Services of such action.
   c. Shall refer matters of student misconduct to the Dean of Student Services.

3. The Dean of Student Services
   a. Shall act directly in situations where a student has violated the local, state, or federal laws while on the College campus and shall consult with civil authorities where appropriate.
   b. Shall review each case of misconduct with involved student and determine appropriate remedies and/or sanctions.
   c. Shall carry out the recommendations of the Superintendent/President, Vice President of Student Services and Disciplinary Hearing Committee.
   d. Shall inform students of institutional action and appropriate avenues of appeal.

4. The Vice President of Student Services
   a. Shall review and take action on all recommendations of the Disciplinary Hearing Committee.
   b. Shall recommend Governing Board action in cases of expulsion and shall make arrangements for a student appeal of such decisions.
   c. Shall act to summarily suspend any student in order to protect lives or property or to insure maintenance of order.

5. The Governing Board
   a. Shall take action on cases of expulsion and shall allow for an appeal of the decision.
   b. Shall approve all rules and regulations where infractions of such could lead to suspension or expulsion.

While final action is pending a disciplinary hearing, a student shall have the right to be present on campus and attend classes.

E. Disciplinary Hearing Committee

Within 5 days after receipt of the Superintendent/President’s decision regarding a long-term suspension or expulsion, the student may request a formal hearing. The request must be made in writing to the Superintendent/President or designee.

The hearing panel for any disciplinary action shall include a minimum of three members from the standing hearing panel to include the hearing panel chair along with two other members from different constituent groups.

The members of the hearing panel shall be provided with a copy of the accusation against the student and any written response provided by the student before the hearing begins.

The facts supporting the accusation shall be presented by a college representative who shall be the Dean of Student Services.

The college representative and the student may call witnesses and introduce oral and written testimony relevant to the issues of the matter.

Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.

Unless the hearing panel determines to proceed otherwise, the college representative and the student shall each be permitted to make an opening statement. Thereafter, the college representative shall make the first presentation, followed by the student. The college representative may present rebuttal evidence after the student completes his or her evidence. The burden shall be on the college representative to prove by the preponderance of evidence that the facts alleged are true.

The student may represent himself/herself, and may also have the right to be represented by a person of his/her choice. The student shall not be represented by an attorney unless, in the judgment of the hearing panel, complex legal issues are involved. If the student wishes to be represented by an attorney, a request must be presented not less than five days prior to the hearing. If the student is permitted to be represented by an attorney, the college representative may request legal assistance. The hearing panel may also request legal assistance; any legal advisor provided to the panel may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.

Hearing shall be closed and confidential unless the student requests that it be open to the public. Any such request must be made not less than 5 days prior to the date of the hearing.

In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the panel agree to the contrary.

The hearing shall be recorded by the District either by tape recording or stenographic recording. The official recording shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the hearing panel chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. Tape recording shall remain in the custody of the District at all times, unless released to a professional transcribing service. The student may request a copy of the tape recording.

Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape recorded shall be considered to be unavailable.
Within 10 days following the close of the hearing, the hearing panel shall prepare and send to the Superintendent/President a written decision. The decision shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the Standards of Student Conduct were violated. The decision shall also include a specific recommendation regarding the disciplinary action to be imposed, if any. The decision shall be based only on the record of the hearing, and not on matters outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing.

VI. STUDENT COMPLAINT AND GRIEVANCE PROCEDURES
The student is encouraged to pursue academic studies and other College-sponsored activities that will promote intellectual growth and personal development. In pursuing these ends, the student should be free of unfair and improper action by any member of the academic community. Procedures for grievances and complaints are described below and provide a means for resolving any alleged unfair or improper action.

A. Discrimination Complaints
1. Students and staff at Monterey Peninsula College shall report any alleged act of discrimination within ten working days to the Supervisor or Administrator in charge of the area where it occurred. For further information, contact the Human Resources Office at (831) 646-4016.
2. Students wishing to file complaints based upon discrimination on the basis of national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status should contact the Associate Dean of Human Resources at (831) 646-4014. Students who wish to file a complaint under Sec-Section 504 of the 1973 Rehabilitation Act should contact the Vice President of Student Services at (831) 646-4190.

B. Student Rights and Grievances
The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances. These procedures shall be available to any student who reasonably believes a college decision or action has adversely affected his/her status, rights, or privileges as a student. The procedures shall include, but not be limited to, grievances regarding:
1. Sex discrimination as prohibited by Title IX of the Higher Education Amendments of 1972;
2. Financial aid, unless the District's financial aid policy contains an appeal procedure;
3. Course grades, to the extent permitted by Education Code Section 76224(a), which provides: “When grades are given for any course of instruction taught in a community college District, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.” “Mistake” may include, but is not limited to errors made by an instructor in calculating a student’s grade and clerical errors;
4. The exercise of rights of free expression protected by state and federal constitutions and Education Code Section 76120.

This procedure does not apply to:
• Student disciplinary actions, which are covered under separate Board policies and Administrative Procedures;
• Police citations (i.e. “tickets”); complaints about citations must be directed to the County Courthouse in the same way as any traffic violation.

Informal Resolution
Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person's immediate supervisor, or the local college administration.

The Superintendent/President shall appoint an employee who shall assist students in seeking resolution by informal means. This person shall be called the Grievance Officer. The Grievance Officer and the student may also seek the assistance of the Associated Student Organization in attempting to resolve a grievance informally.

Informal meetings and discussion between persons directly involved in a grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the grievance.

Any student who believes he/she has a grievance shall file a Statement of Grievance with the Grievance Officer within 10 days of the incident on which the grievance is based, or 10 days after the student learns of the basis for the grievance, whichever is later. The Statement of Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official. Within two days following receipt of the Statement of Grievance Form, the Grievance Officer shall advise the student of his/her rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the Statement of Grievance form.

If at the end of 10 days following the student's first meeting with the Grievance Officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing.
Grievance Hearing Committee
The Superintendent/President or designee shall at the beginning of each semester, including any summer session, establish a standing panel pool of 20 members of the college community, including 5 students, 5 faculty members, 5 classified members, and 5 administrators, from which one or more Grievance Hearing Committees may be appointed. The panel will be established with the advice and assistance of the Associated Students Organization and the Academic Senate, who shall each submit 5 names to the Superintendent/President or designee for inclusion on the panel. A Grievance Hearing Committee shall be constituted in accordance with the following:

- It shall include a minimum of 3 members from the standing hearing committee to include the hearing panel chair along with 2 other members from different constituent groups.
- No person shall serve as a member of a Grievance Hearing Committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner.
- Any party to the grievance may challenge any member of the hearing committee prior to the beginning of the hearing by addressing a challenge to the Superintendent/President or designee who shall determine whether cause for disqualification has been shown. If the Superintendent/President or designee feels that sufficient ground for removal of a member of the committee has been presented, the Superintendent/President or designee shall remove the challenged member or members and substitute a member or members from the panel described above. This determination is subject to appeal as defined below.
- The Grievance Officer shall sit with the Grievance Hearing Committee but shall not serve as a member nor vote. The Grievance Officer shall coordinate all scheduling of hearings, shall serve to assist all parties and the Hearing Committee to facilitate a full, fair and efficient resolution of the grievance, and shall avoid an adversary role.

Request for Grievance Hearing
Any request for a grievance hearing shall be filed on a Request for a Grievance Hearing within 10 days after filing the Statement of Grievance as described above.

Within 10 days following receipt of the request to grievance hearing, the Superintendent/President or designee shall appoint a Grievance Hearing Committee as described above, and the Grievance Hearing Committee shall meet in private and without the parties present to select a chair and to determine on the basis of the Statement of Grievance whether it presents sufficient grounds for a hearing.

The determination of whether the Statement of Grievance presents sufficient grounds for a hearing shall be based on the following:

- The statement contains facts which, if true, would constitute a grievance under these procedures;
- The grievant is a student as defined in these procedures, which include applicants and former students;
- The grievant is personally and directly affected by the alleged grievance;
- The grievance was filed in a timely manner;
- The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

If the grievance does not meet each of the requirements, the Hearing Committee Chair shall notify the student in writing of the rejection of the Request for a Grievance Hearing, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within 10 days of the date the decision is made by the Grievance Hearing Committee.

If the Request for Grievance Hearing satisfies each of the requirements, the College Grievance Officer shall schedule a grievance hearing. The hearing will begin within 10 days following the decision to grant a Grievance Hearing. All parties to the grievance shall be given not less than 5 days notice of the date, time and place of the hearing.

Hearing Procedure
The decision of the Grievance Hearing Committee chair shall be final on all matters relating to the conduct of the hearing unless there is a vote of a majority of the other members of the panel to the contrary.

The members of the Grievance Hearing Committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.

Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.

Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.

Unless the Grievance Hearing Committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s’) evidence. The burden shall be on the grievant or grievants to prove by substantial evidence that the facts alleged are true and that a grievance has been established as specified above.

Each party to the grievance may represent himself/herself, and may also have the right to be represented by a person of his/her choice; except that a party shall not be represented by an attorney unless, in the judgement of the Grievance Hearing Committee, complex legal issues are involved. If a party wishes to be represented by an attorney, a request must be presented not less than 7 days prior to the date of the hearing. If one party is permitted to be represented by an attorney, any other party shall have the right to be represented by an attorney. The hearing committee may also request legal assistance through the Superintendent/President. Any legal advisor provided to the hearing committee may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.

Hearings shall be closed and confidential unless all parties request that it be open to the public. Any such request must be made no less than 5 days prior to the date of the hearing.

In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.

The hearing shall be recorded by the Grievance Officer either by tape recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the Grievance Hearing Committee Chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The tape recording shall remain in the custody of the District, either at the college or the District office, at all times, unless released to a professional transcribing service. Any party involved in the hearing may request a copy of the tape recording.
All testimony shall be taken under oath; the oath shall be administered by the Grievance Hearing Committee Chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape recorded shall be considered to be unavailable.

Within 10 days following the close of the hearing, the Grievance Hearing Committee shall prepare and send to the Superintendent/President or designee a written decision. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined above. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matters outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

Superintendent/President’s Decision
Within 10 days following receipt of the Grievance Hearing Committee’s decision and recommendations(s), the Superintendent/President or designee shall send to all parties his/her written decision, together with the Hearing Committee’s decision and recommendations. The Superintendent/President or designee may accept or reject the findings, decisions and recommendations of the Hearing Committee. The factual findings of the Hearing Committee shall be accorded great weight; and if the Superintendent/President or designee does not accept the decision or a finding or recommendation of the Hearing Committee, the Superintendent/President or designee shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Superintendent/President or designee shall be final, subject only to appeal as provided below.

Appeal
Any appeal relating to a Grievance Hearing Committee decision that the Statement of Grievance does not present a grievance as defined in these procedures shall be made in writing to the Superintendent/President within 10 days of that decision. The Superintendent/President or designee shall review the Statement of Grievance and Request for Grievance Hearing in accordance with the requirements for a grievance provided in these procedures, but shall not consider any other matters. The Superintendent/President’s decision whether or not to grant a grievance hearing shall be final and not subject to further appeal.

Time Limits
Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

College Safety and You
This statement is published in accordance with the 1998 Kristin Smart Campus Security Act Title II of Public Law 101-542, Section 20 U.S.C. 1092 and The Higher Education Act, the “Jeanne Cleary Disclosure of Campus Security Policy and Campus Crime Statistics Act.”

Crime Reporting Procedures – 20 U.S.C. 1092 A
Working together, safety and security within the properties of the District is everybody’s business. No community, of course, can be totally risk-free in today’s society. Students, faculty, staff and visitors are partners in creating an atmosphere that is safe and conducive to learning.

The Monterey campus is under the concurrent jurisdiction of the Monterey Police Department and Campus Security. On-campus Security personnel are available during most hours that classes are held.

Education Center at Marina is under the concurrent jurisdiction of the Marina Police Department and Campus Security. Inquiries to the Marina Police Department can be made by calling the non-emergency number 831-384-7575.

The Public Safety Training Center in Seaside is under the concurrent jurisdiction of the Seaside Police Department and Campus Security. Inquiries to the Seaside Police Department can be made by calling the non-emergency number 831-394-6811.

A person may report any criminal action or any other emergency at any time - day or night - by calling 911. Routine inquiries should be addressed to the Security Office (831-646-4099) located in the Student Center on the Monterey Campus.

Campus Security Department – 20 U.S.C. 1092 C
It is the policy of the Monterey Peninsula Community College District to provide the members of the total college community and to protect the property of the District. The Campus Security Department shall insure that reasonable protection is provided by using methods that fit within, and contribute to, the educational philosophy and procedures of the institution.

The District works cooperatively with the Monterey Police Department at the Monterey campus, the Marina Police Department at the Education Center at Marina, and the Seaside Police Department at the Public Safety Training Center in providing assistance for incidents that require resources not available to the College. The police department investigates all felonies, including those covered by the California Vehicle Code. All felony crimes that take place on campus are immediately reported to the police department.

One of the essential ingredients of any successful crime prevention program is an informed public. It is the intent of the Monterey Peninsula Community College District to inform students and staff, in a timely manner, of any criminal activity or security problem which may pose a reasonable threat to their physical safety. Such information will normally be distributed to students through this document and through student publications. Staff are informed through Security Alert Notifications, All Users emails as well as bulletins and newsletters.

Another critical element of a campus safety program is training. Security, Health Services, and Associated Students sponsor programs on various topics ranging from sexual assault awareness to substance abuse prevention.

Finally, all effective crime prevention programs include some measure of people watching out for one another. All staff and students are asked to be ALERT, SECURITY-CONSCIOUS, and INVOLVED. Call Security (ext. 4099) or 911, identify that you are on the Campus and wish to report suspicious behavior, or any crime that is occurring.
Local police departments provide the District with crime data for the areas surrounding the facilities operated by the District. The District will notify persons using these facilities when a security problem arises.

Substance Abuse – 20 U.S.C. 1092 L
In accordance with Public Law 101-226 Drug-Free Schools and Communities Act Amendment of 1989, the Governing Board of Trustees of the District prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students or employees on M.P.C.C. District property and as part of any District-sponsored or -sanctioned activity.

Any student or employee in violation of this policy is subject to disciplinary action up to, and including, expulsion from the College or termination from employment for violations of the appropriate standards of conduct.

The possession, use, or sale of alcoholic beverages by anyone on district controlled property is a misdemeanor per California Business Code 25608, and a violation of the District Standards of Student Conduct.

The use, sale or possession of any illegal drug is a violation of State law, and any person found in violation may be subject to arrest by federal, state, local or campus law enforcement authorities. Criminal prosecution is separate from any administrative discipline that may be imposed by the District.

Campus Crime Statistics
This report meets all reporting requirements as set forth in the Jeanne Cleary Disclosure of Campus Security Policy and Campus Crime Statistics Act. Monterey Peninsula College also reports this information at the Office of Postsecondary Education Campus Security Statistics Website in cooperation with the U.S. Department of Education. Implementation of Title IX, VAWA/Campus SaVE Act, and Related Sex Discrimination, Sexual Harassment and Sexual Violence Legislation:
Title IX is a federal law that applies to educational institutions receiving federal financial assistance and prohibits discrimination on the basis of sex in an educational institution's programs or activities, including employment, academic, educational, extracurricular and athletic activities (both on and off campus). Title IX protects all people regardless of their gender or gender identity from sex discrimination, including sexual harassment and sexual violence, which are forms of sex discrimination. Title IX violations amended the Clery Act to require institutions to compile statistics for incidents of: Dating Violence, Domestic Violence, Sexual Assault and Stalking.

Safety and Campus Regulations

Access to Campus Facilities
Buildings
Campus buildings are generally open from 7:00 a.m. to 10:00 p.m.

Individuals needing to be in campus buildings or College areas other than during regularly scheduled work hours should contact campus security at (831) 646-4099.

Campus buildings are normally locked from 5:00 p.m. Friday to 7:00 a.m. Monday. College personnel unlock doors for scheduled weekend classes and special events.

It is the responsibility of all MPC personnel who use rooms, offices, and areas to lock access doors, turn off lights, and close windows. College staff routinely checks the campus during off-hours. Primary responsibility for security, however, lies with the individual last in the facility.

Keys
Keys are provided to staff members on a need-to-enter basis as determined by the appropriate administrator. Lost keys must be reported immediately to one's supervisor and to Campus Security (831-646-4099) and Facilities (831-646-4049).

District policy forbids keys to be loaned to other staff members or students. Campus Security will confiscate keys which have not been specifically issued to a particular individual. Duplication of campus keys is a misdemeanor.

Animals on Campus
No animals are allowed to be brought on campus or kept in vehicles on campus except service animals or animals being used as part of a scheduled class. Animals left in cars will be turned over to Monterey Animal Control.

Bicycles, Skateboards and Rollerblades
These vehicles must be parked in areas so marked. They may not be ridden on inner campus pathways and must be walked moving through the campus interior.

Collection and Raising of Funds
Students or faculty members may not be solicited to contribute funds to any organization which is not directly under the jurisdiction of Monterey Peninsula College without the express permission of the College administration. Likewise, no non-student group or individual may collect funds on campus or have campus groups collect for them without prior approval of the College administration.

College Property
Do not remove District property from the campus without written permission from a Vice President or Dean. Unauthorized removal of District property from the campus is a violation of the law and may be prosecuted by the District.

Contacting Students
Emergency Only
In cases of extreme emergency, such as sudden illness or accident, students may be contacted on campus by calling Campus Security at (831) 646-4099. Non-emergency messages are not delivered to students.

Copyright Responsibility
Any request for duplication of copyrighted materials used in the College's instructional programs must be accompanied by written permission of the copyright owner. Any duplication of copyrighted materials by student, staff, or faculty is to be for the sole purpose of private scholarly study.
Parking and Traffic
All vehicles parked on campus must display a valid hanging parking permit or temporary dashboard parking permit. The hanging permit will be legally honored only if it is readable, placed in the proper position on the mirror, and displayed in accordance with parking regulations. Student permits may be purchased online through WebReg. One-day permits may be purchased from dispensing machines in each general parking lot.

Parked is limited to designated areas and in marked stalls. Parking without a valid permit will result in the issuance of a citation. Parking in unauthorized areas can result in the towing of the vehicle at the owner's expense. The registered owner of the vehicle is responsible for all parking citations given to a particular vehicle regardless of who is driving or who has parked the vehicle.

Bicycles and Motor-Driven Bikes
These vehicles must be parked in areas so marked. They may not be ridden on inner campus pathways and must be walked moving through the campus interior.

Parking and Traffic Regulations
Violation of these regulations will be subject to citations issued by the College Security Department or the Monterey Police Department. A Request for an Administrative Review may be made by calling the Security Office at (831) 646-4005. Parking citations will be filed with the Monterey County Municipal Court. All citations must be cleared within 21 days. No citation will be voided on campus.

1. Permits
All vehicles must properly display a current semester, annual, or daily permit. Vehicles that do not properly display a current permit will be subject to citation. Enforced 7:00 a.m. to 9:00 p.m., Monday through Thursday, and 7:00 a.m. to 5:00 p.m., Friday.

2. Parking
No person shall park or leave standing any vehicle except on a designated parking lot. When painted lines designate parking spaces, no parking will be allowed in that lot except between those lines. Where no lines are painted within a parking lot, no vehicle shall be parked in such a manner as to prevent the entrance, exit, or free movement of any other vehicle. Enforced 7:00 a.m. to 9:00 p.m., Monday through Thursday, and 7:00 a.m. to 5:00 p.m., Friday.

3. Staff Parking
No person whose vehicle does not properly display a current “Staff” or “Press” parking permit shall park in lots designated and marked staff parking and/or parking spaces marked in yellow. Enforced 7:00 a.m. to 9:00 p.m., Monday through Thursday, and 7:00 a.m. to 5:00 p.m., Friday, unless otherwise posted.

4. Accessible parking
No person whose vehicle does not display either the distinguishing license plate or placard issued by the Department of Motor Vehicles shall park in any space designated for use by persons with disabilities. These spaces are designated by a blue wheelchair on white background in the center of the space. Enforced 24 hours per day, 7 days per week.

5. Visitor parking
Visitors may park free of charge for 30 minutes in the rows of spaces across from the Student Services Building. Enforced 7:00 a.m. to 9:00 p.m., Monday through Thursday, and 7:00 a.m. to 5:00 p.m., Friday.

Transfer Information

2018-2019 Catalog of Courses
Transfer Process

It is recommended that students work closely with a counselor to develop an education plan for transferring to a four-year institution. Students who are preparing to transfer to a bachelor's degree program should familiarize themselves with the current catalog and website of their transfer college for information about admission qualifications and application procedures, since these vary and are subject to change. Students planning to transfer may, with careful planning, also complete the graduation requirements for MPC's Associate in Arts or Associate in Science degree. Students are encouraged to complete both transfer and AA/AS requirements in order to have completed a degree upon transferring. They should meet with a counselor for degree and transfer counseling. See “Associate Degree” and “Associate in Arts/Science for Transfer” on pages 72-73.

There are four major components to transfer from a community college to a college/university bachelor’s degree program:

1. Total units required
2. General education courses*
3. Major preparation courses
4. Minimum grade point average

*Transfer students interested in California State Universities (CSU) or Universities of California (UC) should become familiar with general education requirements (see CSU-GE, page 76 and IGETC, page 77). Students with units from another college or university should have official transcripts sent to MPC Admissions and Records Office and meet with a counselor for a complete evaluation (see also Transfer Credit, page 32).

Effective and competitive transfer strategies include taking the required level of Math and English as soon as possible; maintaining the highest possible GPA; completing as much major prep as possible; and following deadlines.

Admission to California Public University System

California State University (CSU)

Go to websites www2.calstate.edu/apply and www2.calstate.edu/apply/transfer

Lower-Division Transfer (LDT) Admission Requirements

Many campuses restrict or prohibit enrollment of lower division transfer students. Contact the campus of your choice to determine if there are admission limits. You may be eligible for admission with fewer than 60 transferable semester units (90 quarter units) if you:

- Have a college grade point average of 2.0 or better in all transferable college units attempted - in the case of high demand majors and campuses, a GPA of 2.0 may not be sufficient to be admitted;
- Are in good standing at the last college or university attended, i.e., you are eligible to re-enroll;
- Meet the requirements for a first-time freshman or have successfully completed necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects;
- Submit your high school transcript and official test scores;
- Have completed, with a grade of C- or better, a course in GE Section A2 in written communication and a course in GE section B4 in mathematics or quantitative reasoning;
- Meet the eligibility index required of a freshman (if you do not meet the eligibility index it is recommended that you continue your education at a community college and complete 60 or more units. See upper division transfer requirements listed below);
- Some campuses require completion of English composition and general education mathematics. Lower-division transfer students will be required to take the English Placement Test (EPT) and the Entry Level Mathematics Test (ELM) if they are not exempt based on SAT I or ACT scores (see exemptions in the freshman section of the CSU application) or have not completed the appropriate English and math college-level course with grade of “C” or better.
- File an application for admission during the priority filing period.

Upper-Division Transfer Admission Requirements

(advanced standing or “junior”)

You are eligible for admission with 60 or more transferable semester units (90 quarter units) if you:

- Have a college grade point average of 2.0 or better at your local CSU in all transferable college units attempted (out-of-area CSU may require a higher GPA);
- Are in good standing at the last college or university attended, i.e., you are eligible to re-enroll;
- Have completed, or will complete prior to transfer, at least 30 semester units (45 quarter units) of courses equivalent to general education requirements with a grade of “C” or better. The 30 units must include all of the general education requirements in communication in the English language (English composition, oral communication and critical thinking) and at least one course of at least 3 semester units (4 quarter units) required in college-level mathematics;
- Upper-division transfer students who have completed English composition (English 1A) and college-level math courses (a math course with a prerequisite of intermediate algebra or higher) with grades of “C” or better are exempt from the English Placement Test (EPT) and the Entry Level Mathematics Test (ELM). Math and English requirements must be completed prior to enrolling at a CSU campus. Most campuses will not accept math and English coursework completed during the summer term just prior to fall enrollment. Check with the campus of your choice or see a counselor.
- File an application for admission during the priority filing period.

Filing online is the preferred method. Submit official transcripts from ALL colleges and universities that you attended, even if no work was completed; this includes college work in high school.

Check www2.calstate.edu/apply for filing periods and campus availability. Submit official transcripts from ALL colleges and universities that you attended, even if no work was completed; this includes college work in high school.

Check www2.calstate.edu/apply for filing periods and campus availability. Submit official transcripts from ALL colleges and universities that you attended, even if no work was completed; this includes college work in high school.
Additional CSU Admission Requirements for Impacted Majors and campuses
An undergraduate major or campus is designated as impacted when the number of applications received during the initial filing period exceeds the number of available spaces. Currently, several CSUs are impacted and most are admitting with regional priority. Supplementary admission criteria may be used to screen all applicants for admission to impacted majors. Students can maximize opportunities by applying during the initial application period, meeting regular admission requirements, completing all supplementary admission criteria, and considering a second campus choice or alternate major. Detailed impaction information is available at www2.calstate.edu/attend/impaction-at-the-csu

Associate Degrees for Transfer (ADT)
California community colleges offer associate degrees for transfer to the CSU. These include Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California community college students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Students who have been awarded an AA-T or AS-T are able to complete their remaining upper division requirements for the 120-unit baccalaureate degree within 60-semester or 90-quarter units.

Monterey Peninsula College offers multiple AA-T and AS-T degrees. Contact a counselor for more information. To find out which CSU campuses accept each degree, please go to www2.calstate.edu/apply/transfer and click on "ADT Major/Campus Search".

Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

University of California (UC)
Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco (medical programs only), Santa Barbara, Santa Cruz.

Go to http://admission.universityofcalifornia.edu/transfer for assistance.

Some campuses may restrict applications of lower division transfer students or those with too many upper division units. Contact the campus of your choice to determine if there are admission limits.

Lower division transfer eligibility: Admission is dependent upon the completion of certain high school subject requirements, including English, a language other than English, mathematics, U.S. history, U.S. government, laboratory science, visual and performing arts, college preparatory electives, and satisfying the scholarship requirement and examination requirements (see Eligibility Index in UC application). MPC students qualifying for admission upon graduation from high school (satisfied the subject, scholarship and exam requirements) may be able to transfer at any time they have a “C” (2.0) GPA (2.8 GPA for nonresidents) in all college work transferable to the University of California. Contact the UC campus for more information.

Upper division transfer eligibility: According to the University of California, a transfer applicant is a student who has graduated from high school and enrolled in a regular session at another college or university. According to this definition, a student cannot disregard his or her college record and apply as a freshman. MPC transfer students not eligible for admission upon graduation from high school must complete a pattern of courses that satisfies the transfer admission requirements listed below, earning a grade of “C” or better in each course. Students who satisfy the Intersegmental General Education Transfer Curriculum (IGETC) may meet this course pattern (see IGETC on page 77).

1. Complete 60 semester (90 quarter) units of UC-transferable college credit with a GPA of at least 2.4 or 2.8 for nonresidents (no more than 14 semester/21 quarter units may be taken Pass/No Pass); and
2. Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; and
3. One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning; and
4. Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences.
5. Before you start working on general education courses, check what is recommended for your major and the campuses you are interested in. Some majors – such as engineering or the biological, physical, and natural sciences – do not recommend IGETC.
6. If you have an area of study in mind, see each school’s major preparation page which includes IGETC and general education guidance for some of UC’s most popular majors. Major preparation is a priority to become a strong transfer candidate.
7. File an application for admission during the priority filing period. Check http://admission.universityofcalifornia.edu/how-to-apply/ for filing periods and campus availability. Filing online is the preferred method. If you are admitted, submit official transcripts from ALL colleges and universities that you attended, even if no work was completed; this includes college work while in high school. Some campuses may ask for transcripts prior to admission. Submit IGETC Certification after acceptance and before transfer (see page 68).

Additional UC Admission Requirements
If a particular campus or major receives more applicants than spaces available, the campus will use additional admission criteria or requirements. Always check with the campus of your choice for specific requirements. Fulfilling prerequisites in your major (some campuses will NOT consider an alternate major, while others encourage it – check your preferred campus), choosing alternate campuses and completing more than minimum requirements may increase your chances of UC admission. All UC admission information is from the University of California undergraduate application.
CSU/UC Course Agreements Online at ASSIST
Comprehensive articulation information, including transferable course agreements for all California community colleges, is available at www.assist.org. ASSIST provides access to the most current articulation agreements between the California community colleges and UC or CSU. ASSIST information includes the general education requirements, major preparation, transfer pathways, C-ID (Course Identification Number), articulation, and links to the application websites and is updated in real time.

Transfer Admission Guarantee (TAG)
The TAG program at Monterey Peninsula College is a “contract” that universities make with students who meet the transfer admission requirements and will therefore receive early notification of conditional acceptance. These agreements have GPA minimum and unit completion requirements. TAGs can be submitted online with UC Davis, UC Irvine, UC Santa Barbara, UC Santa Cruz, UC Merced, and UC Riverside. TAG requirements vary and are subject to change. The student must have completed at least 30 transferable units to submit TAG. You can file one TAG with your preferred UC campus September 1 through 30 at https://uctap.universityofcalifornia.edu. The TAG application is available online throughout the year and is submitted to your preferred campus from September 1 through 30. TAG students should begin the process early and contact the Counseling Department to schedule a counseling appointment.

General Education Requirements
MPC students who want to transfer to a University of California or California State University campus in advanced standing (also called upper-division or junior level) should satisfy as many university general education and major requirements (prerequisites) as possible before transferring. High-unit majors such as engineering and biological sciences may be exempt from some general education courses. Each campus of the UC system has its own specific general education and major requirements; however, many UC campuses will honor certification of the IGETC. Students should see a counselor for more information and check www.assist.org for articulation agreements.

CSU General Education Pattern
The CSU General Education-Breadth (CSU GE, see page 76) program allows California community college transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer. This curriculum provides an alternative to the IGETC requirements and to a university’s GE/Breadth requirements. This can be a good option if you know you want to transfer to a CSU, but you do not know which campus you will attend, or if you know which campus you will attend, but do not know which major you will pursue. The GE-Breadth program is designed to educate students to: think, write, and speak clearly and logically; reason quantitatively; gain knowledge about the human body and mind; the development and functioning of human society, the physical and biological world, and human cultures and civilizations; and develop an understanding of the principles, methods, and values of human inquiry.

CSU-GE Certification
Upon completion of lower division general education, transferring students should request that a CSU-GE Certification be sent to the CSU campus of choice. The request is usually made during the last semester/session and after acceptance to the CSU. Up to 39 of the 48 GE-Breadth units required can be transferred from and certified by a California community college. If students do not complete the general education certification requirements before transferring, the courses they complete may be reviewed differently. Contact a counselor for information regarding certification.

Intersegmental General Education Transfer Curriculum (IGETC)
The IGETC is a series of courses that community college students can complete to satisfy lower division general education requirements at any CSU or UC campus; pattern is outlined on page 77. Courses must be completed for all areas with a grade of “C” or better. It should be noted that completion of the IGETC is neither a requirement for transfer to CSU or UC nor is it the only way to fulfill the lower division general education requirements prior to transfer. Students pursuing majors that require extensive lower division preparation (e.g., science, engineering, arts) may find the IGETC inappropriate to follow. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus. Counselors are available to help students decide which pattern to follow.

IGETC Certification
Once all requirements have been completed, the transferring student should request that a certification of the IGETC be sent to the University of California or California State University. Partial certification (i.e., certification of all but one or two courses) is allowed. Students must still complete all admission requirements for transfer: Areas 1A, 1B, 1C and Area 2 (see page 77 for IGETC). Students intending to transfer to CSU are required to take an additional course in Oral Communication and do not need to demonstrate proficiency in language other than English to transfer, but another language may be required for CSU graduation. Check your campus of choice.

Contact a counselor for information regarding certification.
Transfer to Local Private Universities

Brandman University (Monterey Campus)

General Education Requirements

(Subject to change; check with the institution.)

GE Block Transfer
Completion of the full CSU or UC IGETC certification (California), Washington and Oregon state-approved Direct Transfer degrees, or other state’s equivalent transfer certification prior to the student being admitted or enrolled and attending his/her first session in a bachelor’s degree program at Brandman satisfies all Brandman University GE requirements except LBSU 304, LBSU 302, and University Degree Qualifications.

General Transfer Credit Policy
Brandman University accepts all university-level credit earned from regionally accredited colleges and universities, excluding remedial or non-degree coursework.

Middlebury Institute of International Studies at Monterey

General Education Requirements

(Subject to change; check with the institution.)

Transfer students who are admitted to the Middlebury Institute of International Studies at Monterey may be able to complete their BA and MA in a total of 3 years. Students will receive a BA in International Studies and will apply to the MA program of their choice. Admission to the BA in International Studies requires two years of prior study, approximately 60 semester credits of transfer coursework from an accredited college or university. A grade point average of 3.0 on a 4.0 scale is required, and only appropriate courses in which the student has earned grades of “B” or better can be transferred. Students should complete the following general education requirements before applying: English Composition (3 units), English Literature (3 units), History or Government (3 units), Physical Science (3 units), Social Science (3 units), Second Language (in one language) (16 units), and Electives (29 units). Micro Economics (3 units) and Macro Economics (3 units) are suggested for students planning a Master’s degree in the International Policy and Management School. The semester credits required for admission may include work in progress, but 60 semester credits must be completed prior to enrollment. For information and application instructions please e-mail admit@miis.edu or visit www.miis.edu

Monterey College of Law General Education Requirements

(Subject to change; check with the institution.)

Admission to the Monterey College of Law is based upon a combination of factors including academic record, LSAT score or accepted options, personal statement, special interests and non-academic accomplishments related to future performance in the legal field. The completion of a bachelor’s degree from an accredited college or university is recommended at the time of enrollment. In some circumstances, an applicant with less than a bachelor’s degree but with more than 60 semester units of academic credit may be approved for admission. Only MPC courses numbered 1-99 are recommended as prerequisites for law school admission. It is suggested that these courses be chosen to represent a wide variety of general education to include English, social science, natural science, and humanities. Monterey College of Law offers the Juris Doctorate (J.D.) program and the Masters of Legal Studies (MLS) program. For more information, please visit www.montereylaw.edu or contact Monterey College of Law directly.

Transfer to Independent or Out-of-State Colleges and Universities

MPC students can prepare to transfer to any four-year college or university in the country. Past transfers include California institutions such as Santa Clara, University of the Pacific, Mills, Pepperdine, University of Southern California, as well as out-of-state schools such as Boston, Howard, New York University, Penn State, Tulane, and Smith. California independent and out-of-state universities should be contacted by the student for specific transfer requirements; many institutions will accept the CSU GE or the UC IGETC pattern. The Association of Independent California Colleges and Universities website www.aiccu.edu provides resources to select best match based on needs and interests. Out-of-state colleges can be researched at http://nces.ed.gov/collegenavigator/ The Career & Transfer Resource Center provides access to paper catalogs and to an online catalog service.

Cross-Enrollment

UC and CSU

(Subject to change; check with the institution.)

This program is designed to encourage transfer and potential transfer students to explore transfer options through enrollment at four-year institutions. MPC students may cross-enroll at University of California or California State University without formal admission and at a reduced fee. Students may take a maximum of one course per academic term at a campus of either the CSU or UC system on a space-available basis. To meet eligibility requirements, MPC student needs to:

• Have completed at least one term as an MPC matriculated student
• Be enrolled for a minimum of 6 units at MPC
• Have earned a grade point average of 2.0 for work completed
• Have paid fees at MPC
• Have completed appropriate academic preparations as determined by host campus
• Be a California resident

• Complete the Application for Cross-Enrollment available at the MPC Admissions and Records Office and at www.mpc.edu/admissions/forms

2018-2019 Catalog of Courses
Instructional Programs

A primary objective of Monterey Peninsula College is to extend its services and resources to the community to help meet the community’s educational needs. Classes are offered during the day, evening and weekend on the Monterey campus, at the Education Center at Marina, the Public Safety Training Center in Seaside, at off-campus locations, as well as online.

Monterey Peninsula College offers the following types of programs:

Career technical: Programs in career technical education offer students skills and knowledge needed for employment and job advancement. Students can earn a Certificate of Training, a Certificate of Achievement, and/or an associate degree.

Transfer: The transfer path enables the student to complete the lower-division requirements in preparation for transfer to a baccalaureate-granting institution. MPC courses parallel those offered to freshman and sophomore students at the University of California, California State University, and private colleges and universities. Students may elect to complete an Associate Degree for Transfer which guarantees admission into selected programs at campuses in the California State Universities.

Skills Development: Courses and programs in basic skills are offered to students needing to increase performance levels in English, reading, study skills, math, critical thinking and other fundamental skills required for successful completion of college-level course work. An English as a Second Language program is available for students whose native language is one other than English. Support centers are available for language and mathematics skill development at a wide range of levels.

In order to increase access, Monterey Peninsula College offers many classes in the community as well as on the Monterey, Marina, and Seaside campuses. Numerous classes are offered through the Older Adult program at senior citizen centers and at other easily accessible sites. MPC also offers classes at local high schools.

Further, Monterey Peninsula College provides distance education through its growing number of online courses. Some online courses also require on-campus orientations. Finally, Monterey Peninsula College offers a wide range of courses through Instructional Service Agreements, providing educational opportunity in partnership with various agencies and firms in the community.

Degree and Certificate Information

Students planning to graduate from MPC must file a petition for an associate degree and/or an application for Certificate of Achievement to receive a certificate by the deadlines outlined on page 26.

Students attending Monterey Peninsula College are eligible to receive multiple degrees. More specifically, a student may pursue more than one degree simultaneously. The requirements for the majors, along with the general education requirements, must equal a minimum of sixty associate degree-applicable units.

Associate Degree

The California State Board of Education has authorized the Monterey Peninsula College District Governing Board of Trustees to confer the Associate in Arts and Associate in Science degrees. The Associate in Arts degree is awarded in the liberal arts area; the Associate in Science degree is awarded in the science and career technical fields.

The associate degree is awarded upon satisfying the following:

1. Competency requirements
   a. Reading
   b. Writing
   c. Mathematics
   d. Information competency

2. General Education requirements

3. Major requirements: Each course in the major must be completed with a grade of “C” or better.

4. A minimum of sixty (60) degree-applicable units (courses numbered 1-299 with MPC GE, numbered 1-99 with CSU-GE, or designated as UC transferable with IGETC) with a 2.0 (“C”) or higher grade point average. Pre-collegiate courses (300-399) do not apply toward the degree. Grades earned in non-degree credit courses are not included in the calculation of the degree-applicable grade point average. A maximum of 20 units of “P” may be applied towards the associate degree.

5. Completion of twelve (12) units at Monterey Peninsula College, with at least six in the major area.
Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T)
The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer.” The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor for more information on university admission and transfer requirements when planning to complete the degree.

The following Associate Degree for Transfer requirements must be completed to earn the AA-T or AS-T degree.

• 60 semester CSU-transferable units.
• The California State University – General Education-Breadth pattern (CSU GE Breadth); OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.
• Earn a minimum of 18 semester units in the major or area of emphasis as determined by the community college district.
• Obtain a minimum grade point average (GPA) of 2.0.
• Earn a grade of C or better in all courses required for the major or area of emphasis.
• For the Associate Degree for Transfer, students must meet the residency requirement of 12 units completed at MPC but do not need 6 units of residency within the major as with general associate degrees.

At the time of catalog publication, the following Associate Degree for Transfer programs have been approved for MPC. Other majors are under development. For more information, please see a counselor and/or visit www.mpc.edu

The student must complete all the units required for the second degree. All general education courses required for the specific degree must be completed.

Certificate of Achievement
A Certificate of Achievement recognizes a student’s satisfactory completion of an organized program of study and is awarded upon satisfying the following:

1. Major requirements

3. At least twelve (12) units applied toward the major requirements must be completed at Monterey Peninsula College

Certificate of Training
Some departments provide a Certificate of Training to students who successfully complete a short-term, intensive course sequence designed to prepare students for entry-level employment opportunities. Students who complete a Certificate of Training are encouraged to return to Monterey Peninsula College to complete the Certificate of Achievement and associate degree. Students must file an application for Certificate of Training through the department offering the program.

Certificate of Completion
A noncredit certificate of completion is a sequence of courses involving elementary and secondary basic skills; workforce preparation courses in the basic skills of speaking, listening, reading, writing, mathematics, decisionmaking, and problem solving skills that are necessary to participate in job-specific technical training; or courses in English as a second language and vocational English as a second language leading to improved employability or job opportunities.
Graduation Requirements

1. Competency Requirements

a. Reading and Writing
(1) Completion of English 1A with a grade of “C” or better or a verified equivalent course successfully completed at another college.
(2) Competency may also be met by achieving any of the following minimum test scores:

b. Mathematics
This requirement can be satisfied in any of the following ways:
(1) Completion of MATH 263 (Intermediate Algebra and Coordinate Geometry) or higher math course, with a grade of “C” or better or equivalent intermediate algebra or higher course from another university or college.
(2) Credit by examination will be accepted for MATH 263.
(3) Achieving any of the following minimum scores:

Examination | Score
--- | ---
Advanced Placement (AP) | 3, 4 or 5
CLEP subject exam in College Algebra, Calculus or Trigonometry | 50 percentile
College Math Placement Exam Placement into transferable math course | 

c. Information Competency
This requirement can be satisfied in any of the following ways:
(1) Completion of LIBR 50 with a grade “C” or better.
(2) Completion of an equivalent course at another college or university.
(3) Completion of the Information Competency Requirement at another college or university.
(4) A satisfactory score on the Information Competency proficiency exam (0 units).
(5) Credit by examination with a passing grade “C” or better will be accepted for LIBR 50.

2. General Education Requirements
Students can select from one of three general education patterns:
CSU GE-Breadth, IGETC, or MPC GE.

CSU General Education-Breadth (GE-Breadth)
The CSU GE-Breadth pattern allows California community college transfer students to fulfill lower division general education requirements for any CSU campus prior to transfer. This general education pattern can be a good option for students who know they want to transfer to a CSU.
The CSU GE-Breadth is designed to educate students to: think, write, and speak clearly and logically; reason quantitatively; gain knowledge about the human body and mind, the development and functioning of human society, the physical and biological world, and human cultures and civilizations; and develop an understanding of the principles, methods, and values of human inquiry.
See page 76 for the components of the CSU GE-Breadth pattern and the courses that satisfy each component. Use this pattern with transfer preparation majors if you are transferring to a CSU campus.

Intersegmental General Education Transfer Curriculum (IGETC)
The IGETC is a selection of courses that community college students can use to satisfy lower division general education requirements at any CSU or UC campus. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus.
See page 78 for the components of the IGETC and the courses that satisfy each component. Use this pattern with transfer preparation majors if you plan to transfer to the CSU or the UC.

MPC General Education
The MPC General Education pattern is intended to provide a broad educational foundation for students enrolled in one of the degree programs which terminates with an associate degree.

The MPC General Education pattern is divided into six areas, as described below. See page 78 for a summary and the courses that satisfy each area. Use this pattern with MPC career technical majors.

California State University General Education Requirements 2018-2019

A minimum of 48 semester units in General Education are required for a degree: 9 semester units must be at the upper division level. This pattern is designed to satisfy the 39 units of lower division general education requirement to any of the CSU campuses. A course may be listed in more than one area, but can be used to satisfy the requirement in only one area. The “Golden Four” (Areas A1, A2, A3, and B4) must be completed with grades of C- or better. Consult with a counselor regarding your education plan.

## Intersegmental General Education Transfer Curriculum (IGETC) 2018-2019

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or the University of California system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements. The course requirements for all areas must be completed before IGETC can be certified. All courses must be completed with grades of "C" or better (a grade of "C-" is not acceptable). Consult with a counselor regarding your education plan.

Course Descriptions and Numbering

All courses are listed alphabetically. Not all courses listed in this catalog may be offered during the academic year. Unit of credit or semester unit is a measure of time and study devoted to a course. Hours for courses are listed as hours that the student will spend in class per week for the semester. Total hours spent in a class are listed for courses that are less than a semester in length. These hours may be lecture, laboratory, discussion, field study, studio, activity, or clinical.

Course Grading

The following course grading is found in the course description following the title of the course:

- **LG**: Letter grade only
- **P/NP**: Pass/No Pass grade only
- **LG-P/NP**: Letter Grade or Pass/No Pass grade
- **NC**: Non-Credit

Course Numbers

The college has adopted the following numbering system effective Fall 2005:

**1-99 BS/BA Level and Associate Degree**: Courses numbered 1 through 99 are baccalaureate level courses, carrying lower division baccalaureate level credit at four-year colleges and universities. Not all courses numbered 1-99 are transferable to UC. Check the MPC Catalog description for transferability. "Baccalaureate applicable" courses in the 1 through 99 series meet the following criteria:

1. The course is parallel to one offered at a California State University or University of California campus and/or has been accepted as satisfying a general education requirement as indicated by the approved CSU-GE List (California State University General Education List) or the IGETC (Intersegmental General Education Transfer Curriculum).

2. The course has procedural rigor to meet the critical thinking and/or computational levels required for baccalaureate level courses. Courses in this series are also associate degree applicable.

**100–299 Associate Degree Only**: Courses numbered 100 through 299 are associate degree level courses. They are generally, but not exclusively, career technical in nature. Courses numbered 100–199 may transfer at the discretion of the receiving institution. If a student takes both ENGL 111 and 112, only one of the courses may be applied toward the associate degree.

**300–399 Credit, Non-Degree Applicable**: Courses numbered 300 through 399 are intended as developmental courses in reading, writing, mathematics, English as a Second Language, and study and learning skills. They may not be used to fulfill any degree requirements.

**400–499 Non-credit**: Courses numbered 400 through 499 are courses for which no credit is awarded.

Course Requisites

The following definitions from Title 5, Section Code 55200 of the California Code of Regulations are used to describe conditions that should be considered before a student enrolls in a class.

Requisites are determined to be “necessary and appropriate” when a strong rational basis exists for concluding that a prerequisite or corequisite is reasonably needed to achieve the purpose that it purports to serve.

**Prerequisite** means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. Prerequisite courses must be completed with a grade of “C” or better.

**Corequisite** means a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course.

**Advisory** means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

**Enrollment Limitation** means a condition of enrollment that a student is required to meet for admission into a program such as Work Experience or Dental Assisting.

**Satisfactory grade** means that, for the course in question, the student’s academic record has been annotated with the symbol A, B, C, or P.
### BIOL 21  CONCEPTS IN BIOLOGY I: CELLS, GENETICS, AND ORGANISMS

**5 units • LG • Four hours lecture; three hours lab**

This course, intended for majors, covers principles and applications of prokaryotic and eukaryotic cell structure and function, biological molecules, homeostasis, cell reproduction and its controls, molecular genetics, classical/Mendelian genetics, cell metabolism including photosynthesis and respiration, cellular communication, physiology, development, biotechnology, and genomics. The philosophy of science, methods of scientific inquiry and experimental design are foundational to the course.

(C-ID BIOL 190)

- **Prerequisites:** CHEM 1A; MATH 263 or higher
- **Advisories:** Eligibility for ENGL 1A
- **Credit transferable:** CSU, UC
- **General Ed. Credit:** CSU, Area B2, B3; IGETC, Area 5B, 5C; MPC, Area B

### ENGR 12L  ENGINEERING CIRCUITS LABORATORY

**1 unit • LG-P/NP • Three hours lab**

Students build, measure, analyze, and model standard electronics circuits while verifying theoretical circuit principles. Multimeters, oscilloscopes, power supplies, function generators, and circuit simulation tools are used to collect data and describe circuit behavior. Laboratory projects present circuits similar to those covered in ENGR 12 while also introducing semiconductor components such as diodes, transistors, and other integrated circuits. May also be offered online.

- **Corequisites:** ENGR 12
- **Credit transferable:** CSU, UC

ANTH 4 INTRODUCTION TO CULTURAL ANTHROPOLOGY
3 units • LG-P/NP • Three hours lecture
This course explores how anthropologists study and compare human culture. Cultural anthropologists seek to understand the broad arc of human experience focusing on a set of central patterns: how they organize themselves socially, politically and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences, and introduce students to how anthropologists do their work, employ professional anthropological research ethics and apply their perspectives and skills to understand humans around the globe. May also be offered online. [C-ID ANTH 120]

ASSOCIATE IN ARTS FOR TRANSFER DEGREE

The Associate of Arts in Art History for Transfer degree (AA-T in Art History) program promotes an understanding of art across cultures and geographic boundaries. Students are taught to apply fundamental art and art historical terminology to analyze works, and to develop an appreciation of process, in order to articulate the historical, social, and aesthetic functions of art. The program is suited to the needs of students who will complete their education at Monterey Peninsula College with an A.A. degree, as well as those students who will complete their Monterey Peninsula College A.A. degree and transfer to a four-year institution to complete their bachelor's degree. Successful completion of the Associate in Arts in Art History for Transfer degree program guarantees the student acceptance to a California State University (but does not guarantee acceptance to a particular campus or major) to pursue a baccalaureate degree in Art History or similar area of study. Students must complete the Associate Degree for Transfer requirements to earn the AA-T degree.

Learning Outcomes: Upon successful completion of the program, students will be able to:

• Recognize and describe the formal qualities of a work of art.
• Interpret the formal qualities of works of art in relation to specific social and historical circumstances.
• Analyze and communicate the influences affecting artists working within diverse cultural contexts.

## Chemistry

### DEGREE

**Chemistry – Associate in Science**

## ASSOCIATE IN SCIENCE DEGREE

The Associate in Science degree with an emphasis in Chemistry is designed to prepare students who wish to pursue a Bachelor’s degree in Chemistry at a four-year institution. Students enrolled in this program will use the scientific method to investigate phenomena in the natural world and use concepts, experiments, and/or theory to explain them.

**Learning Outcomes:** Upon successful completion of the program, students will be able to:

- Describe the particle nature of matter, explain the attractions and/or bonds between chemical units, and predict the physical and chemical properties they possess.
- Describe chemical compounds and their reactions using the fundamental language of chemistry, including the use of proper chemical names, molecular formulas, chemical equations, structural drawings, and reaction mechanisms.
- Predict the likelihood and extent of a chemical reaction by analyzing the kinetic and thermodynamic properties of the system.
- Solve chemistry-specific problems by identifying the essential parts of the problem, formulating a strategy for solving the problem, applying appropriate techniques to arrive at a solution, testing the correctness of the solution, and interpreting the results.
- Successfully execute chemistry experiments using standard laboratory equipment, modern instrumentation, and classical purification techniques.
- Communicate the concepts and results of chemistry experiments through effective writing and/or oral communication using the discipline standards for reporting and citation.
- Follow the proper procedures and regulations for safe handling and use of chemicals.

The Associate in Arts in Communication Studies for Transfer degree (AA-T in Communication Studies) program assists students in improving their communication skills and is designed to prepare students for a major in Communication Studies. The course of study promotes understanding, analysis, and effective application of theories related to communication in interpersonal, group, public, organizational, multicultural, and/or mediated contexts. The program prepares students to transfer into the CSU system to pursue a baccalaureate degree in Communication Studies or related major. Students must complete the Associate Degree for Transfer requirements to earn the AA-T degree.

Learning Outcomes: Upon successful completion of the program, students will be able to:

• Critically examine and comprehend human nature and behavior, social traditions, and institutions.
• Analyze and evaluate complex issues or problems, draw reasoned conclusions and/or generate solutions, and effectively communicate their results.

ASSOCIATE IN ARTS DEGREE

This degree provides an opportunity for students to earn an Associate of Arts (AA) degree in a comprehensive area of study and is intended for the student who is not currently preparing to transfer to a university. A minimum of 60 semester units must be completed with an overall Grade Point Average (GPA) of 2.0 or better in all degree-applicable units. Only courses numbered 1-299 may be applied toward this associate degree.

The Humanities encompass thought and language and reflect, interpret, and communicate concepts, values, beliefs, and traditions held individually, socially, and culturally. Study of the humanities develops an awareness, appreciation, understanding of the human condition and of how that condition relates to personal and societal needs, values, and achievements. The performing and visual arts are unique in that the mode of communication is primarily presentation rather than discursive, and the deepest meanings in the arts are non-verbal.

Learning Outcomes: Upon successful completion of the program, students will be able to:

• Form a provable thesis, develop it through factual research, distinguish between fact and opinion, and make effective rhetorical choices in relation to audience and purpose.

• Analyze and evaluate complex issues or problems, draw reasoned conclusions and/or generate solutions, and effectively communicate the results.

• Analyze and interpret human thought, achievement, and expression relevant to such branches of knowledge as philosophy, literature, and/or the fine and performing arts, and to communicate the results.

• Critically examine and comprehend human nature and behavior, social traditions, and institutions.

• Examine interactions and interconnections across cultures.

ASSOCIATE IN SCIENCE FOR TRANSFER DEGREE

The Associate in Science in Geology for Transfer degree (AS-T in Geology)  
provides students with sufficient understanding of geologic concepts to attain  
upper division status to transfer into the CSU system. Successful completion  
of the transfer degree in Geology at Monterey Peninsula College guarantees  
the student acceptance to a California State University (but does not guarantee  
acceptance to a particular campus or major) to pursue a baccalaureate  
degree in Geology or related major, in preparation for a career in research,  
industry, and education. Students must complete the Associate Degree for  
Transfer requirements to earn the AS-T degree.

Learning Outcomes: Upon successful completion of the program, students will  
be able to:

- Explain Earth features in terms of surficial processes, tectonics,  
  and human influence.
- Use the scientific method to investigate phenomena in the natural world  
  and use concepts, experiments, and/or theory to explain them.
- Use observations of outcrops and/or landscape morphology to interpret  
  basic geologic history and processes.

Mathematics
ASSOCIATE IN SCIENCE FOR TRANSFER DEGREE

The Associate in Science in Mathematics for Transfer degree (AS-T in Mathematics) program provides students with sufficient understanding of mathematical concepts, skills, and applications to attain upper division status in mathematics at a four-year college or university, majoring in mathematics, physics, engineering, or computer science. Successful completion of the transfer degree in mathematics guarantees the student acceptance to a California State University (but does not guarantee acceptance to a particular campus or major) to pursue a baccalaureate degree in mathematics or related major, in preparation to pursue a career in the field of mathematics, engineering, statistics, actuarial science, business and management, law enforcement, government, and education. Students must complete the Associate Degree for Transfer requirements to earn the AS-T degree.

Learning Outcomes: Upon successful completion of the program, students will be able to:

• Solve problems using mathematical symbols, operations, and techniques.
• Construct mathematical models of physical problems, draw conclusions from these models, and communicate their conclusions.
• Formulate, test, and prove mathematical conjectures.

CERTIFICATE OF TRAINING

Industrial Automation Mechatronics Technology

This Certificate of Training prepares students with practical skills in robotic automation, electronics, and mechanical systems (broadly referred to as mechatronics), suitable for technician-level employment in a number of fields where automation and robotics systems are making rapid inroads. This includes everything from agriculture to water treatment, and from assembly lines to surgical robotics. Some examples of specific job titles include machine maintenance technician, field service technician, manufacturing process technician, and electro-mechanical technician. The curriculum is designed to provide real-world, hands-on problem-solving skills and requires only beginning algebra as a prerequisite. Some students may find this program a suitable path to further academic study in fields such as engineering.

Learning Outcomes: Upon successful completion of the program, students will be able to:
• Apply basic principles of physics to develop a mechanical system capable of performing a well-defined task.
• Design, fabricate, assemble, and troubleshoot a printed circuit board capable of interfacing an electronic sensor to a microcontroller.
• Design, fabricate, and document a complex electro-mechanical system using modern automated and power machinery.
• Combine sensors, actuators, microcontrollers, and software to effectively control a robotics project.

Nursing

DEGREES

Nursing – Associate in Science (Career Technical)
Pre-Nursing – Associate in Arts (Transfer Preparation)

ASSOCIATE IN SCIENCE DEGREE (Career Technical)

The Maurine Church Coburn School of Nursing offers an Associate in Science degree in nursing. It is accredited by the Accreditation Commission for Education in Nursing (ACEN) and approved by the California Board of Registered Nursing (BRN). Completion of this program allows graduates to take the National Council Licensure Exam (NCLEX) for Registered Nursing. Graduates are prepared for entry-level RN positions. The curriculum provides hands-on experiences with a variety of healthcare populations, including geriatrics, medical, surgical, obstetrics, pediatrics, and psychiatric/mental health. Due to space limitations, completion of program prerequisites does not guarantee admission to the program. All of the following are considered when screening applicants:

- Academic degrees
- Grade point average in relevant pre-requisite coursework (all courses require letter grade)
- Life experiences or special circumstances
- Relevant work, volunteer experience or healthcare certification
- Proficiency or advanced coursework in a language other than English

Once selected, applicants must successfully complete a pre-entrance readiness test (and remediation plan if indicated) in order to be admitted. Once selected for the program, students must comply with additional program requirements such as health screen, background check, drug screen, and proof of immunizations. The cost of these requirements is the responsibility of the student and is explained in detail at a mandatory new student orientation.

LVNs/LPNs who seek advanced placement into the second or third semester of the program must qualify by completing program prerequisites, and then successfully completing a placement examination and performance-based preparation plan (LVNs/LPNs may also request to be admitted under the Board of Registered Nursing Regulation 1429, the 30-unit option, which does not confer a degree). Advanced placement is available only as space permits.

An accelerated first-semester course is available to selected applicants with previous education in the field of nursing, including military education and experience, who qualify by both multi-criterion process and placement testing.

The Associate in Science in Physics for Transfer degree (AS-T in Physics) program provides students with sufficient understanding of the physical world with concepts, laws of physics and qualitative and quantitative reasoning skills to think critically and to analyze real world situations. Successful completion of the transfer degree at Monterey Peninsula College guarantees students acceptance to a California State University (but does not guarantee acceptance to a particular campus or major) to pursue a baccalaureate degree in Physics or related major, in preparation to pursue a career in research, industry, and education. Students must complete the Associate Degree for Transfer requirements to earn the AS-T degree.

### Learning Outcomes:
Upon successful completion of the program, students will be able to:

- Reason qualitatively and logically about physical phenomena using scientific models.
- Apply Newton’s laws, thermodynamics, the laws of electricity and magnetism, quantum theory, and the principles of energy conservation to problems involving motion, heat, light, electro-magnetism, and matter.
- Use appropriate instruments to perform scientific experiments to analyze data to check agreements with theoretical predictions.

ASSOCIATE IN ARTS FOR TRANSFER DEGREE

The Associate in Arts in Spanish for Transfer degree (AA-T in Spanish) program offers a comprehensive approach to Spanish language learning. It incorporates all aspects of the language, including the basic language skills (listening, speaking, reading, writing, grammar, and culture) with emphasis on conversation practice, linguistic competence, and cultural awareness. Two distinct tracks are offered for completing this program, equal in credit but tailored to the specific needs of non-native vs. heritage-speaking students. The latter will take parallel courses specifically designed for Spanish speakers. The goal is that they are able to recognize fossilized errors as well as identify linguistic and cultural differences between Spanish and English discourses. The combination of the core courses and the wide variety of electives offered within the degree program prepares students to transfer into the CSU system to pursue a baccalaureate degree in Spanish or similar major. Students must complete the Associate Degree for Transfer requirements to earn the AA-T degree.

Learning Outcomes: Upon successful completion of the program, students will be able to:

• Engage in conversation and interactions with speakers of the Spanish language using the necessary rules of pronunciation, grammar and syntax.
• Understand and interpret spoken Spanish and respond to it at all levels of proficiency.
• Understand and interpret Spanish reading passages at various levels of proficiency.
• Convey information, concepts and ideas in writing to an audience of Spanish readers on a variety of topics.
